**RE: U-Haul at Falcon
Maintenance Agreement
Kiowa Project Number 21061**

To Whom It May Concern:

The proposed development does not include a permanent water quality facility or detention basin. The existing regional water quality and detention basin (Detention Pond WU) will provide water quality and detention for the development.

A maintenance agreement is not needed for the development.

Please feel free to contact me if there are any questions.

Sincerely,
Kiowa Engineering Corporation
