**RE: U-Haul at Falcon  
PDB/BMP Operations and Maintenance Manual  
Kiowa Project Number 21061**

To Whom It May Concern:

The proposed development does not include a permanent water quality facility. The existing regional water quality and detention basin (Detention Pond WU) will provide water quality for the development.

The current O&M Manual for Pond WU will be used.

Please feel free to contact me if there are any questions.

Sincerely,  
Kiowa Engineering Corporation

A handwritten signature in black ink that reads "Matthew Erichsen". The signature is written in a cursive, flowing style.
