

EL PASO COUNTY STORMWATER MANAGEMENT PLAN CHECKLIST

Satisfies criteria

X Needs to be addressed

EPC Project Number: change to PPR-22-036

	Revised: July 2019	Applicant	EPC			
1. STORMWATER MANAGEMENT PLAN						
1	Applicant (owner/designated operator), SWMP Preparer, Qualified Stormwater Manager, and Contractor Information. (On cover/title sheet)		X			
2	Table of Contents		X			
3	Site description and location to include: vicinity map with nearest street/crossroads description		X			
4	Narrative description of construction activities proposed (e.g., may include clearing and grubbing, temporary stabilization, road grading, utility / storm installation, final grading, final stabilization, and removal of temporary control measures)		~			
5	Phasing plan – may require separate drawings indicating initial, interim, and final site phases for larger projects. Provide "living maps" that can be revised in the field as conditions dictate		~			
6	Proposed sequence for major activities: Provide a construction schedule of anticipated starting and completion dates for each stage of land-disturbing activity depicting conservation measures anticipated, including the expected date on which the final stabilization will be completed		~			
7	Estimates of the total site area and area to undergo disturbance; current area of disturbance must be updated on the SWMP as changes occur		X			
8	Soil erosion potential and impacts on discharge that includes a summary of the data used to determine soil erosion potential		X			
9	A description of existing vegetation at the site and percent ground cover and method used to determine ground cover		X			
10	Location and description of all potential pollution sources including but not limited to: disturbed and stored soils; vehicle tracking; management of contaminated soils; loading and unloading operations; outdoor storage of materials; vehicle and equipment maintenance and fueling; significant dust generating process; routine maintenance activities involving fertilizers, pesticides, herbicides, detergents, fuels, solvents, oils, etc.; on-site waste management; concrete truck/equipment washing; dedicated asphalt, concrete batch plants and masonry mixing stations; non-industrial waste such as trash and portable toilets		X			
11	Material handling to include spill prevention and response plan and procedures		X			
12	Spill prevention and pollution controls for dedicated batch plants		X			
13	Other SW pollutant control measures to include waste disposal and off-site soil tracking		X			
14	Location and description of any anticipated allowable non-stormwater discharge (ground water, springs, irrigation, discharge covered by CDPHE Low Risk Guidance, etc.)		~			
15	Name(s) of ultimate receiving waters; size, type and location of stormwater outfall or storm sewer system discharge		~			
16	Description of all stream crossings located within the project area or statement that no streams cross the project area		X
