### **Request**

On behalf of the El Paso County School District 49, we are submitting this letter in order to request that our submittal package to be accepted without the updated traffic impact study at this time. It is urgent that we get our stormwater documents into the county for review in order to proceed with our project and prevent further delays.

We are in the process of addressing the comments received on the Traffic Impact study and will submit our responses directly to our planner as soon as we have that ready. We anticipate that this updated report will be ready in approximately 1-2 weeks.

We appreciate your cooperation in this matter especially given our unique circumstance on this governmental school project.

Sincerely,

Brian Calhoun, AIA
