El Paso County Development Services Department
Attn: Brad Walters, Inspection Supervisor
2880 International Circle
Colorado Springs, CO 80910

Please specifically reference the Runoff Reduction area (just the RPA) since RR is a PCM. That way it is clear that this letter is certifying a PCM, not just roads and ditches.

**SUBJECT: Kinch Subdivision (MS-204)
Engineer's Certification Letter – Subdivision Improvements**

Dear Brad:

The public street improvements for Kinch Subdivision consist of roadway improvements depicted in the Construction Drawings, including the following street:

- Kinch Court

Based upon information gathered from periodic site visits to the project during the installation of the street and drainage improvements, JPS Engineering, Inc. is of the opinion that the public improvements have been constructed in general compliance with the approved design plans and specifications as filed with El Paso County.

The site and adjacent properties (as affected by work performed under the County permit) appear to be stable with respect to settlement and subsidence, sloughing of cut and fill slopes, revegetation or other ground cover, and the improvements (public improvements, common development improvements, site grading and paving) meet or exceed the minimum design requirements.

Sincerely,
JPS Engineering, Inc.

John P. Schwab, P.E.
Colorado P.E. No. 29891
