### **Falcon Self Storage, MS-23-2**

Please accept the following comments from El Paso County Public Health (EPCPH) regarding the project referenced above:

- **Water service will be provided by Woodmen Hills Metropolitan District, which is a Colorado Department of Public Health and Environment approved community water and wastewater treatment facility. There is a finding for sufficiency in terms of water quality for Woodmen Hills Metropolitan District. At this time water will only be used for the irrigation of landscaping.**
- **Wastewater service from Woodmen Hills Metropolitan District is available, but not planned for this project.**
- **Earthmoving activity more than one acre, but less than twenty-five acres, requires a local Construction Activity Permit from El Paso County Public Health. Go to <https://www.elpasocountyhealth.org/service/air-quality/construction-activity-application> for more information.**
- **The water quality detention basin must have mosquito control responsibilities included as a part of the maintenance plan to help control mosquito breeding habitat and minimize the potential for West Nile Virus.**
