RE: The Springs Community Administrative Relief

File: ADR-20-015  
Parcel ID No.: 5408003013

This is to inform you that the above referenced request by The Springs Community mobile home park for approval of an application for administrative relief to allow a 16-foot separation between mobile homes for individual spaces 579J and 210D where 20 feet is required in the MHP: Mobile Home Park zoning district was **approved** by the Planning and Community Development Director on November 19, 2020.

It is the determination and finding of the Planning and Community Development Department (PCD) Director that the application meets the review criteria for Administrative Relief included in Section 5.5.1 of the El Paso County Land Development Code (2019) based upon the following analysis of the review criteria.

Due to the age of the mobile home park, the existing pad sites for mobile homes are not sized appropriately to place new mobile homes which meet current HUD standards in order to facilitate provision of affordable housing options for El Paso County residents. Based on this analysis, the Planning and Community Development Director has made a finding that strict application of the building separation requirement is unreasonable in this instance.

The intent of Section 4.2.2, MHP, Mobile Home Park District, of the Code is as follows:

“to promote an acceptable living environment for occupants of mobile home parks.”

The intent of the Code is preserved by encouraging the replacement of the older mobile homes with newer models that comply with current building standards.

A reduction of the setback requirements will not have an adverse impact on surrounding properties. Furthermore, facilitating the replacement of older mobile homes with newer models will have a positive impact on the mobile home park and allow for the provision
