Subject: Concerned about increased density in Flying Horse North

Notes (Describe the issue for the Commissioner): I am concerned that the developer is submitted a revised sketch plan that will triple the density of the residential housing in flying horse north. The increase in density is contrary to and contradicts the most recent planning documents. In addition I'm concerned about the water resources. There has not been a statewide evaluation of the aquifers since 1987. I'm not sure how much more population are aquifers will be able to support. Compounding that problem is that Kansas and Nebraska owns most of the water rights for anything coming off the Eastern slope. I am asking you to vote no on the proposed sketch plan for the development of flying horse North. Vote no on the increased density of residential units. And vote no on the proposed luxury hotel. Thank you for your time and your consideration. Regards Scott Riebel
