Subject: MS4 Post Construction Form - The Cottage at Mesa Ridge

Project Number: 200541

On behalf of the Developer (Goodwin Knight) this memo is intended to provide documentation to El Paso County stating that it is our understanding that the subject project currently does not require the submittal of an MS4 Post Construction Form. This form is required by the County for projects requiring a new detention and/or a water quality facility. This project proposes to utilize an existing detention/water quality basin that is located within the City of Fountain which has a separate MS4.
