PPR-17-028, Lone Duck Campground Site Development Plan

Please accept the following comments from El Paso County Public Health regarding the project referenced above:

- This is a proposed amendment to a previously approved site development plan and variance includes the extension of water and electric services (no wastewater) to 13 additional campsites in the reconfigured group camping area. El Paso County Public Health recommends the following comments are considered should the variance and plot plan be approved.
- Sufficient undeveloped land area must be dedicated for repair and/or replacement of the existing on-site wastewater treatment system (OWTS) soil treatment area (STA) should future repairs be required.
- Please contact the Colorado Department of Public Health and Environment (CDPHE), Water Quality Control Division (WQCD), for any regulations and/or guidance that may be applicable to the expansion of water service to the 13 new campsites. <https://www.colorado.gov/pacific/cdphe/drinking-water-non-community-groundwater-inspections>
