Hi, just wanted to add it should be an all-weather surface to prevent sinking of our equipment, should be rated for 75,000 lbs.  
Thanks

As I see it we have a 20 foot drive way with a wrap around the detached garage and turn out? If the wrap around drive is also 20 feet we can approve this secondary drive way without changes requested. Thank you.

Hello Mr. Parkerson,  
Attached is the revised secondary access plan for 15610 Herring Road. We have been working on this plan since August. Please advise if the revision is acceptable so we can move along to obtaining a building permit.  
Thank you for your time and consideration.
