Good afternoon,

Just to let you know, I met with Dave Jones a little over a week or so to look at the property where the proposed development is to be., as well as review the preliminary plans. I have no issues at this stage as long as they stay with the proposed plans for the cistern, installation of fire sprinkler systems in the commercial building development and proper access for fire apparatus travel in and out of the sub division. Please feel free to contact me if you have any questions or need further information.

Thank you,

Vinny Burns
Fire Chief,

Wescott FD
