PROPOSED BOCES CAMPUS at JUDGE ORR ROAD AND ELBERT ROAD

Abbreviated Letter of Intent

BOCES purchased the 86.38 acre subject property with the intent of developing a Vocational Training educational campus on it. Initially the Concept Plan proposes to provide a BOCES Administrative Office and Construction Trades school. A Fire Station with Training Facility, Sheriff Substation, and Medical Clinic will also become part of the Vocational Training program while also serving the local community.

Future development may include a Veterinary Program facility, Culinary Arts/Bakery, and Food Service Program facility, and a Horticultural Program facility. A portion of the Campus may also be developed with up to 50 Workforce homes to primarily house BOCES staff and students.

BOCES is presently evaluating the creation of a BOCES Metropolitan District to enable it to fund and develop an on-site water treatment facility and other infrastructure for the entire Campus. BOCES owns the water rights to the aquifers on the property. A water resources study by a hydrologist and water attorney indicates there is sufficient water to support the proposed Campus, but BOCES believes it would be advantageous and preferable for both BOCES and the surrounding community to develop a central water system via a water treatment facility to serve its needs versus constructing new wells to support its requirements.
