Re: CDNR Correspondence

Dear Ms. Parsons,

Coordination with Doug Hollister of the Division of Water Resources and Chris Grimes of the Ground Water Commission has taken place to discuss the non-tributary, large capacity commercial well sites that will service the Grandview Reserve Metropolitan District.

The well sites are to be controlled, operated and maintained by the Grandview Reserve Metropolitan District. Currently the District is in the process of approval, with a hearing set for September 2021. Based on conversations with CDNR, once approval of the District occurs, formal submittals to CDNR will take place to permit the well sites of the first filing of Grandview Reserve.

Sincerely,

HR GREEN, INC
