

ROAD SURVEY OF CONDITION PRECONSTRUCTION

On May 7, 2026, the Colorado Public Utilities Commission issued Decision No. C26-0299 in the matter of the application of Public Service Company of Colorado (PSCo) concerning an appeal of a local governmental land use decision issued by El Paso County (CPUC Decision) for Colorado's Power Pathway (Pathway). The CPUC Decision did not order PSCo to provide a Road Survey of Condition Preconstruction to El Paso County.

PSCo conducted a pre-construction road survey in June of 2026 but, due to file size and format, it cannot be easily provided to El Paso County. It is not possible to provide "a link to survey" as requested by El Paso County via the Electronic Development Application Review Program portal for Pathway (File Number PPR2617). PSCo has posted the pre-construction road survey data to a secure online data viewer platform and on August 17, 2026, PSCo provided access to the online data viewer containing the road survey data to the following El Paso County staff: Bret Dilts BretDilts@elpasoco.com, and Kari Parsons kariparsons@elpasoco.com.
