Executive Summary:
Water Resources and Wastewater Report
Sterling Ranch Metropolitan District #1
February 28, 2019
(Update May 29, 2020)

The original Water Report for Sterling Ranch Metropolitan District #1 was prepared and submitted in May of 2015. Since that time, several addendums have been filed, additional service area has been added, and advancement of platting activities has proceeded as well as construction of the physical water system.

Sterling Ranch Metropolitan District #1 (SRMD#1) will be the primary water/wastewater provider for not only areas within Sterling Ranch, but The Retreat at TimberRidge and The Ranch have been added as service areas and will be served via an overlapping district or Intergovernmental Agreement with SRMD#1.

for 100 years or 300 years which is what county requires.

Water

Sterling Ranch has issued "hard" commitments for six preliminary and final plats which are contained within the original Sterling Ranch Preliminary Plan Phase One area. "Hard" commitments are those commitments based on actual entitled preliminary or final plats. Sketch plans do not rise to the level of land use detail that allows for quantitative identification of water demand. The Phase One area commitment includes 726 SFE and 255.96 AF $_{300\ year}$. **All of the six preliminary and final plats processed or being processed to date are contained within the original Phase One commitment area**.
The Retreat at TimberRidge has submitted a preliminary plan that requires a commitment of 57.89 AF $_{300\ year}$ for 164 lots that will be served by the central system. The commitment is satisfied by 48.73 AF $_{300\ year}$ onsite water and 9.16 AF $_{300\ year}$ transferred from SRMD#1.

The Ranch will also be served by SRMD#1. The Ranch has onsite water equivalent to 245 AF $_{300\ year}$ but has not yet developed to either a preliminary or final plat stage so currently includes no active hard commitments. It should be noted that The Ranch and the 245 AF are within the Upper Black Squirrel Groundwater Basin and therefore the water must be used within The Ranch boundaries.

this is for sterling ranch filing no 2 but that is not mentioned....

SRMD#1 has adequate supply on a 300 year basis to meet all current hard commitments including Sterling Ranch Filing #2.

Wastewater

SRMD#1 has an agreement with Meridian Service Metropolitan District for the provision of wastewater treatment services. An **interim** agreement with Colorado Springs Utilities for wastewater treatment will provide for temporary treatment service while Sterling Ranch is completing its connections to the Meridian system. The current contract allows for up to 5849 SFE of capacity.

TABLE OF CONTENTS

provide copy of all crt decrees in this document.

look at revised Chapter 8 on our website effective 9/2019 and update report.

Also water master plan should be addressed based on the info in this report.

update for todays circumstances this appears to have been rushed together and is already out of date????

SECTION 1 INTRODUCTION

The purpose of this report is to provide an accounting of current and contingent water rights and supply for Sterling Ranch Metropolitan District #1. This water report is for the Sterling Comprehensive Service Area which includes two additional service areas.

1.1 Development Description:

Sterling Ranch Development consists of approximately 1,444 acres located east of Vollmer Rd and north of Woodmen Rd, Section 33, Township 12 South, Range 65 West of the 6th P.M. Districts 1, 2 and 3 are considered Special Districts and are under the jurisdiction of the Special District Act

1,119 acres is designated for 5,225 residential units. 56.36 acres is designated for commercial use. 270 acres is designated for open space, greenways, trails, parks, and school sites.

The Retreat at TimberRidge has 164 single family lots that are anticipated to be served by the Central Sterling system. The Retreat at TimberRidge has a total of 41 Rural sized lots to be served by single family wells and septics. Although the Table for water supply notes the water resources for the rural component of the Retreat, we have not calculated that source nor that demand into the central system figures

The Ranch is on 610.47 acres and estimates a single family dwelling demand of between 1307 and 2179 units along with a Park and School. For the purpose of this report we will estimate the demand at 2100 SFE.

update what is required for sf and tracts, what is current demand, and availability, 2040 2060

SECTION 2 PROJECTION OF WATER NEEDS

2.1 Expected Water User Characteristics:

It is expected that urban style residential lots will be developed with single family housing anticipating turf grass landscaping of less than 3,000 square feet per lot. There are a few larger irrigation users anticipated for the development. There are a limited number of schools, parks, and commercial acreages that we have converted to Single Family Equivalents (SFE). The unit user characteristic employed is consistent with Sterling and other developed areas in the Falcon area. That value is 0.353 AF per SFE annually.

2.2 *Summary of Current Commitments*

The current level of hard service commitments is summarized as follows. It should be noted that Sketch Plans, long term potential demands and other non-entitled levels of planning are not considered until such a time as land use planning advances to a stage that known land use is identified. Table 1 identifies the existing commitments for service.

2040 2060 ? demands & projected needs and what is plan to obtain water...

Table 1
Committed Water Demands for Sterling Ranch Service Area

Service Area	SFE	Water-Acre Feet per Yr
Sterling Ranch Phase One * (commitment dated May 2015)	725	255.96
The Retreat	164	57.9

Sterling Ranch Phase One includes the following plat areas;

- Branding Iron at Sterling Ranch Filing #1
- Sterling Ranch #2
- Homestead at Sterling Ranch Filing No 1
- Homestead at Sterling Ranch Filing No 2
- Copper Chase at Sterling Ranch Filing No 1

retreat at TimbeRridge is also coming form this is it not?

Total Annual Committed Demand of the Sterling Service Area is 313.86 Acre-Feet per Year

SECTION 3 PROPOSED WATER RIGHTS AND SYSTEM FACILITIES

3.1 Water Rights:

attach and name

Water rights adjudications have been decreed by the State of Colorado, Water Division 2 District Court, Water Division 1 District Court, and the Colorado Groundwater Commission. The comprehensive rights for the Sterling Service area include both decrees, and determinations. In addition to groundwater adjudicated under the various service areas, Sterling has contracted for numerous off-site groundwater acquisitions which include three major sites.

Table 2 is a table detailing all of the water rights currently available for the Sterling Service Area.

The three local groundwater rights are associated with the three service area portions; Sterling, Retreat, and The Ranch. Each of these sites has existing decrees and/or determinations outlining the rights associated with the development lands. It is noteworthy that the Retreat proposes that 41 rural style lots will be developed using single family wells and septics. In Table 2, we have noted the rights associated with those proposed wells, but we have not included those rights in the calculations for water available to the central system.

Table 2

Arapahoe	Pending	NNT	3,978	39.78	13.26		97.54 acres		
Denver	Pending	NNT	5,277	52.77	17.59	**30.85**	97.54 acres		
Total Contingent Water Supply Schmidt (without augmentation)					**9.26**				
Total Contingent Water Supply potentially available to Sterling with augmentation					**30.85**				

Note 2 This water noted as Denver NNT requires augmentation, but using other sources, Sterling is making this water available using alternate sources as augmentation

Note 3 This water is also termed the Bar-X water. The sources listed in this table are under contract to Sterling. As the Contract "take-down" proceeds, these supplies will be become the property of Sterling and can be made available for use at Sterling. The Laramie Fox Hills Water has been deeded to Sterling

Note 4 This water is also termed the McCune water. The sources listed in this table are under contract to Sterling.

Note 5 Schmidt Water obtained via Deed 5-18. Application for Decree Estimated to yield above amounts

3.2 Analysis of Adequacy of Current Legal Water Supply:

Water rights adjudications have been decreed by the State of Colorado, Water Division 2 District Court, Water Division 1 District Court, and the Colorado Groundwater Commission. It should be noted that the rights have certain limitations in locations of use. The rights by area are as follows;

- Sterling on and off site rights- 555.47 AF $_{300\ year}$
- Retreat at TimberRidge on site rights are 48.73 AF $_{300\ year}$
- The Ranch on site rights- 245.0 AF $_{300\ year}$

Of the Sterling rights, 9.16 AF $_{300\ year}$ have been committed to the Retreat Service Area, leaving a net Sterling on-site availability of 546.31 AF $_{300\ year.}$

The on-site rights underlying The Ranch are within the Upper Black Squirrel and are limited in use area to The Ranch and the Upper Black Squirrel Designated Basin. Therefore the 245.0 AF $_{300\ year}$ **c**an only be used on the Ranch and not on Sterling ranch proper.

As of February 28, 2019, all of the Retreat water and 9.16 AF from Sterling are committed to the Retreat. As of February 28, 2019, of the net available 546.31 AF $_{300\ year}$, 255.96 $_{300\ year}$, have been dedicated to Sterling Ranch Phase One which includes all of the existing preliminary and final plats to date.

This leaves a net uncommitted amount of water for the remainder of Sterling Ranch of 290.35 $_{300\ year.}$

discuss percentage of renewable verse non-renewable

3.3 Source of Physical Supply:

Municipal water demand would be met using primarily Arapahoe and Laramie-Fox Hills formation wells in the Sterling area. The first well site will be drilled with an Arapahoe Well (A-1) and Laramie-Fox Hills Well (LFH-1). Well site #1 includes both an Arapahoe and a Laramie Fox Hills well. Permits will be obtained as needed to ultimately continue to add to the system as needed.

Off site water to the north of the Sterling Service Area is generally in the Denver and Arapahoe formations. Some Laramie Fox Hills water has been contracted for and can be either physically accessed or used to augment NNT water not otherwise counted in Table 2.

3.4 Water Quality and Treatment:

Appendix C contains the water quality reports for the initial wells drilled at Sterling Ranch. The quality is generally consistent with Denver Basin water typically encountered in the Falcon area. The water quality in these aquifers in this area has typically been suitable for potable use with the addition of iron and manganese treatment.

3.5 *Water Storage, Distribution and Transmission Lines*

update

An initial tank has already been constructed at the Sterling site.

For the purpose of fire protection, we recommend eight inch lines throughout the residential subdivision. The lines should be looped wherever street layout allows. A transmission line of a minimum of 18 inch diameter should be extended south-southwesterly along one of the major roadways from the storage tank into Phase One of the development.

3.6 *Pumping for Service Pressures:*

Ground elevations within the development service area range from approximately 6,970 to 7,320. Adequate service pressures are generally considered 60 psi for residential service. The tank site is on the Sterling property at a base elevation of approximately 7,310 feet which would be capable of supplying acceptable service pressures to ground elevations of approximately 7,190. Initial development is anticipated to be at elevations below 7,190 so the tank site will be able to provide adequate pressure.

As development construction progresses, the SRMD #1District plans to construct the northern transmission line to bring in the off-site water contracted for. Because the storage tanks are located at a high elevation, there is substantial pressure for residential service and fire flow for initial development of Sterling Ranch and all of The Ranch.

SECTION 4 WASTEWATER AND WASTEWATER TREATMENT

update section based on today construction and look at new code adopted 9/2019

4.1 *Wastewater Contract and Treatment*

The Sterling Ranch Metropolitan District has a perpetual contract with the Meridian Service Metropolitan District (MSMD) for the provision of wastewater treatment. The contract allows for the purchase of up to 5849 SFEs of wastewater capacity from MSMD. Wastewater projections are based on similar District historical use developed in the Falcon area. Average daily wastewater loads are expected to be roughly 172 gallons per day per single family residence.

Interim Wastewater Treatment Services will be provided by Colorado Springs Utilities for up to one year while Sterling Ranch is completing its connection to the Meridian System. A copy of the Interim Service Agreement was attached in Prior Water and Wastewater Reports and therefor is not included here. An agreement relating to completion of the wastewater outfall and the associated EGF has been extended to June 30, 2020. A draft of this agreement is attached.

From Table 1, the total committed wastewater taps are identical to those designated for water, which is 164 for the Retreat and 725 for Sterling Ranch. Consequently, Sterling has significant uncommitted capacity for wastewater.

4.2 Wastewater Collection and Pumping

All lands to be developed within the Sterling Ranch and the Retreat areas will gravity feed to the southern portion of the Sterling site. This will be the main collection point for most of the entire future development as well. Sterling is completing construction of the Lift Station and Force Main to serve the area. The force main is constructed across the lower portion of The Ranch. From this point wastewater is intercepted by Meridian Service Metropolitan District.

4.3 Wastewater Treatment

MSMD owns 2.2 million gallons per day of wastewater capacity in the Black Squirrel Wastewater Facility. The plant operator, Cherokee Metropolitan District (CMD) has already approved connections, and systems associated with transport and treatment. MSMD and CMD are in compliance with their current COC issued by the Colorado Department of Public Health and Environment.

Commitments	The Ranch Preliminary Plan *There are no Preliminary plans yet filed in The Ranch*	0	0				
Remaining Excess	The Ranch Service Area		245.00				

General Note 1. The Sterling Ranch Metropolitan District #1 is slated to serve multiple service areas through either IGA, overlapping Districts, or bulk service. Therefore, water acocunting is performed on a comprehensive basis to assure that the District has adequate resources to provide for all service. Supplies are compared above within each separate service areas because certain water rights have limited use areas.

General Note 2; Commitments are not hard commitments until Preliminary Plan, No Sketch plans are considerd here

General Note 3; If a final plat/plan is included in a preliminary plan or plat that has designated a commitment, the final plat is only summed against the original committed water

*** Water derived from within the UBS cannot be applied outside the UBS without separate export order.**

**** Tabulation and supply for Retreat Private wells is noted on Table 2 for information only, it is not included as commitment or supply for central system purposes.**

Comments:	Do Samples Need to be Composited BY THE LAB? ☐	Comments:	

Section III (Supplied or Completed by Public Water System)

Sample Date: 02/16/2017	Collector: Stephanie Schwenke	Facility ID (On Schedule):	Sample Pt ID (On Schedule):

Section IV Radionuclides (Supplied or Completed by Certified Laboratory)

Lab Receipt Date	Lab Analysis Date	Lab Sample ID	Analyte Name (Code)	CAS No.	Analytical Method	MCL	Lab MRL	Result
02/17/2017	03/02/2017	B16917-001	Gross Alpha Including Uranium (4002)	12587-46-1	SM 7110 B	N/A	1.5	0.0(±0.0)
			Combined Uranium (4006)	7440-61-1	D2907-97	30 ug/L		
02/17/2017	03/03/2017	B16917-001	Radium -226 (4020)	13982-63-3	SM 7500-Ra B	N/A	0.1	0.0(±0.2)
02/17/2017	03/14/2017	B16917-001	Radium -228 (4030)	15262-20-1	EPA Ra-05	N/A	0.8	0.0(±0.8)
02/17/2017	03/02/2017	B16917-001	Gross Beta (4100)	12587-47-2	SM 7110 B	50 pCi/L*	2.2	0.0(±2.1)
			Total Dissolved Solids (1930)		EPA 160.3	N/A		

*The MCL for Gross Beta Particle Activity is 4 mrem/year. Since there is no simple conversion between mrem/year and pCi/L EPA considers 50 pCi/L to be the level of concern.

Section V Calculated Values

N/A	Gross Alpha Excluding Uranium (4000)	Calculated Value	15 pCi/L	N/A	
	Combined Radium {-226 & -228} (4010)	Calculated Value	5 pCi/L	N/A	

NT: Not Tested
Lab MRL: Laboratory Minimum Reporting Level
BDL: Below Laboratory MRL. A less than sign (<) may also be used

ug/L: Micrograms per Liter
pCi/L: Picocuries per Liter
MCL: Maximum Contaminant Level

ANALYTICAL SUMMARY REPORT

March 02, 2017

Colorado Analytical Laboratories Inc
PO Drawer 507
Brighton, CO 80601

Work Order: C17020566 Quote ID: C4542 - 624, 625, 1,4-Dioxane

Project Name: 170217005 LFH-1 CO-0121724

Energy Laboratories, Inc. Casper WY received the following 1 sample for Colorado Analytical Laboratories Inc on 2/21/2017 for analysis.

Lab ID	Client Sample ID	Collect Date	Receive Date	Matrix	Test
C17020566-001	170217005-01 LFH-1	02/16/17 0:00	02/21/17	Drinking Water	Azeotropic Distillation Separatory Funnel Liquid-Liquid Ext. Semi-Volatile Organic Compounds 624-Purgeable Organics Volatile Compounds by Azeotropic Distillation

The results as reported relate only to the item(s) submitted for testing. The analyses presented in this report were performed at Energy Laboratories, Inc., 2393 Salt Creek Hwy., Casper, WY 82601, unless otherwise noted. Any exceptions or problems with the analyses are noted in the Laboratory Analytical Report, the QA/QC Summary Report, or the Case Narrative.

If you have any questions regarding these test results, please call.

Report Approved By:

Randy Horton, Project Manager

Digitally signed by
Randy Horton
Date: 2017.03.02 10:49:28 -07:00

CLIENT: Colorado Analytical Laboratories Inc
Project: 170217005 LFH-1 CO-0121724
Work Order: C17020566

Report Date: 03/02/17

CASE NARRATIVE

Tests associated with analyst identified as ELI-B were subcontracted to Energy Laboratories, 1120 S. 27th St., Billings, MT, EPA Number MT00005.

Report Definitions: RL - Analyte reporting limit. QCL - Quality control limit. MCL - Maximum contaminant level. ND - Not detected at the reporting limit.

LABORATORY ANALYTICAL REPORT

Prepared by Casper, WY Branch

Client: Colorado Analytical Laboratories Inc
Project: 170217005 LFH-1 CO-0121724
Lab ID: C17020566-001
Client Sample ID: 170217005-01 LFH-1

Report Date: 03/02/17
Collection Date: 02/16/17
DateReceived: 02/21/17
Matrix: Drinking Water

Analyses	Result	Units	Qualifiers	RL	MCL/ QCL	Method	Analysis Date / By
SEMI-VOLATILE ORGANIC COMPOUNDS							
Surr: Terphenyl-d14	69.0	%REC		32-122		E625	02/27/17 19:27 / eli-b
Surr: 2,4,6-Tribromophenol	60.0	%REC		21-130		E625	02/27/17 19:27 / eli-b

- The sample was received past the extraction prep hold time. The prep hold time was exceeded by 4.31 days.

Report Definitions:
RL - Analyte reporting limit.
QCL - Quality control limit.
MCL - Maximum contaminant level.
ND - Not detected at the reporting limit.

Chain of custody agrees with sample labels?	Yes ☑	No ☐	
Samples in proper container/bottle?	Yes ☑	No ☐	
Sample containers intact?	Yes ☑	No ☐	
Sufficient sample volume for indicated test?	Yes ☑	No ☐	
All samples received within holding time? (Exclude analyses that are considered field parameters such as pH, DO, Res Cl, Sulfite, Ferrous Iron, etc.)	Yes ☑	No ☐	
Temp Blank received in all shipping container(s)/cooler(s)?	Yes ☐	No ☑	Not Applicable ☐
Container/Temp Blank temperature:	6.8°C Blue Ice		
Water - VOA vials have zero headspace?	Yes ☑	No ☐	No VOA vials submitted ☐
Water - pH acceptable upon receipt?	Yes ☐	No ☐	Not Applicable ☑

Standard Reporting Procedures:

Lab measurement of analytes considered field parameters that require analysis within 15 minutes of sampling such as pH, Dissolved Oxygen and Residual Chlorine, are qualified as being analyzed outside of recommended holding time.

Solid/soil samples are reported on a wet weight basis (as received) unless specifically indicated. If moisture corrected, data units are typically noted as –dry. For agricultural and mining soil parameters/characteristics, all samples are dried and ground prior to sample analysis.

RAD

Section I (Supplied or Completed by Public Water System)		Section II (Supplied or Completed by Certified Laboratory)	
Public Water System Information		**Certified Laboratory Information**	
PWS ID: CO0121724		Laboratory ID: CO 00008	
System Name: Sterling Ranch MD		Laboratory Name: Hazen Research, Inc.	
Contact Person:	Phone #:	Contact Person: Jessica Axen	Phone #: 303-279-4501
Comments:	Do Samples Need to be Composited BY THE LAB?	Comments:	

Section III (Supplied or Completed by Public Water System)

Sample Date: 03/23/2017	Collector:	Facility ID (On Schedule):	Sample Pt ID (On Schedule):

Section IV Radionuclides (Supplied or Completed by Certified Laboratory)

Lab Receipt Date	Lab Analysis Date	Lab Sample ID	Analyte Name (Code)	CAS No.	Analytical Method	MCL	Lab MRL	Result
03/24/2017	04/18/2017	C27017-001	Gross Alpha Including Uranium (4002)	12587-46-1	SM 7110 B	N/A	1.5	0.0(±1.5)
			Combined Uranium (4006)	7440-61-1	D2907-97	30 ug/L		
03/24/2017	04/07/2017	C27017-001	Radium -226 (4020)	13982-63-3	SM 7500-Ra B	N/A	0.1	0.4(±0.3)
03/24/2017	03/30/2017	C27017-001	Radium -228 (4030)	15262-20-1	EPA Ra-05	N/A	0.6	0.2(±0.6)
03/24/2017	04/18/2017	C27017-001	Gross Beta (4100)	12587-47-2	SM 7110 B	50 pCi/L*	2.1	0.0(±2.0)
			Total Dissolved Solids (1930)		EPA 160.3	N/A		

*The MCL for Gross Beta Particle Activity is 4 mrem/year. Since there is no simple conversion between mrem/year and pCi/L EPA considers 50 pCi/L to be the level of concern.

Section V Calculated Values

N/A	Gross Alpha Excluding Uranium (4000)	Calculated Value	15 pCi/L	N/A	
	Combined Radium {-226 & -228} (4010)	Calculated Value	5 pCi/L	N/A	

NT: Not Tested
Lab MRL: Laboratory Minimum Reporting Level
BDL: Below Laboratory MRL. A less than sign (<) may also be used

ug/L: Micrograms per Liter
pCi/L: Picocuries per Liter
MCL: Maximum Contaminant Level

ANALYTICAL SUMMARY REPORT

April 06, 2017

Colorado Analytical Laboratories Inc
PO Drawer 507
Brighton, CO 80601

Work Order: C17030850 Quote ID: C4542 - 624, 625, 1,4-Dioxane

Project Name: 170324007 Sterling Ranch MD

Energy Laboratories, Inc. Casper WY received the following 1 sample for Colorado Analytical Laboratories Inc on 3/28/2017 for analysis.

Lab ID	Client Sample ID	Collect Date	Receive Date	Matrix	Test
C17030850-001	170324007 Sterling Ranch MD	03/23/17 8:03	03/28/17	Groundwater	Azeotropic Distillation Separatory Funnel Liquid-Liquid Ext. Semi-Volatile Organic Compounds 624-Purgeable Organics Volatile Compounds by Azeotropic Distillation

The results as reported relate only to the item(s) submitted for testing. The analyses presented in this report were performed at Energy Laboratories, Inc., 2393 Salt Creek Hwy., Casper, WY 82601, unless otherwise noted. Any exceptions or problems with the analyses are noted in the Laboratory Analytical Report, the QA/QC Summary Report, or the Case Narrative.

If you have any questions regarding these test results, please call.

Report Approved By: Randy Horton, Project Manager

Digitally signed by
Randy Horton
Date: 2017.04.06 16:31:29 -06:00

CLIENT: Colorado Analytical Laboratories Inc
Project: 170324007 Sterling Ranch MD
Work Order: C17030850

Report Date: 04/06/17

CASE NARRATIVE

Tests associated with analyst identified as ELI-B were subcontracted to Energy Laboratories, 1120 S. 27th St., Billings, MT, EPA Number MT00005.

Standard Reporting Procedures:

Lab measurement of analytes considered field parameters that require analysis within 15 minutes of sampling such as pH, Dissolved Oxygen and Residual Chlorine, are qualified as being analyzed outside of recommended holding time.

Solid/soil samples are reported on a wet weight basis (as received) unless specifically indicated. If moisture corrected, data units are typically noted as –dry. For agricultural and mining soil parameters/characteristics, all samples are dried and ground prior to sample analysis.

SUBDIVISION IMPROVEMENTS AGREEMENT
HOMESTEAD AT STERLING RANCH FILING NO. 2, a Replat of
Tract E, Sterling Ranch Filing No. 1

THIS AGREEMENT, made between **SR LAND, L.L.C**., (the "Subdivider") **STERLING RANCH METROPOLITAN DISTRICT NO. 1** (the "District"), **ELITE PROPERTIES OF AMERICA, INC.** ("Elite"), and **EL PASO COUNTY**, by and through the Board of County Commissioners of El Paso County, Colorado (the "County"), shall become effective the date of approval of the Final Plat by the Board of County Commissioners.

WITNESSETH:

WHEREAS, the Subdivider, as a condition of approval of the final plat of Homestead at Sterling Ranch Filing No. 2 Subdivision ("Homestead No. 2"), and the District wish to enter into a Subdivision Improvements Agreement, as provided for by Section 30-28-137 (C.R.S.), Chapter 5 of the El Paso County Engineering Criteria Manual and Chapter 8 of the El Paso County Land Development Code incorporated herein; and

WHEREAS, pursuant to the same authority, the Subdivider is obligated to provide security or collateral sufficient in the judgment of the Board of County Commissioners to make reasonable provision for completion of certain public improvements set forth on Exhibit A attached hereto and incorporated herein; and

WHEREAS, the Subdivider wishes to provide collateral to guarantee performance of this Agreement, including construction of the above-referenced improvements, by means of a letter of credit; and

WHEREAS, Elite wishes to provide the collateral required to secure performance of the Subdivider's and the District's obligations to complete the wastewater connection to the Meridian System (as defined in paragraph 5c. hereof) (the "Meridian System Connection"), as described in this Agreement; and

WHEREAS, Homestead No. 2 is replat of Tract E, Sterling Ranch Filing No. 1, located within Sterling Ranch, a 1,443-acre master planned community; and

WHEREAS, the parties hereto desire to set forth their understanding and agreement with regard to the construction and installation of the improvements set forth on Exhibit A attached hereto.

NOW, THEREFORE, in consideration of the following mutual covenants and agreements, the Subdivider, the District and the County agree as follows:

l. **Responsibility to Construct**: The Subdivider and District agree to construct and install, at their sole expense, all of those improvements as set forth on Exhibit A attached hereto. Such obligation shall be joint and several unless otherwise set forth herein. To secure and guarantee performance of their obligations as set forth herein, the Subdivider agrees to provide collateral to remain in effect at all times until the improvements are completed and accepted in accordance with Chapter 5 of the ECM. Security and collateral for the Briargate Pavement improvements identified in Exhibit A shall be posted in the form of a letter of credit issued by Integrity Bank & Trust in the amount of $260,355.56. Security and collateral for all other improvements identified in Exhibit A shall be posted in the form of a letter of credit issued by Integrity Bank & Trust in the amount of _____.

With respect to the Meridian System Connection only, the financial assurance estimate for which is attached hereto as Exhibit B and incorporated herein, and to secure and guarantee performance of the Subdivider's and the District's obligations for the installation and construction of the Meridian System Connection only, Elite agrees to provide collateral to remain in effect at all times until the Meridian System Connection improvements are completed and accepted in accordance with Chapter 5 of the ECM. Security and collateral for the Meridian System Connection shall be posted in the form of a Subdivision Bond issued by Philadelphia Insurance Companies in the amount of $618,300 (the "Meridian System Connection Collateral").

2. **Renewal of Collateral**: Subdivider and Elite are responsible for providing any renewals of their respective collateral to ensure that there is never a lapse in security coverage. Subdivider and Elite shall procure renewal/extension/replacement collateral at least fifteen (15) days prior to the expiration of the original or renewal/extension/replacement collateral then in effect. Failure to procure renewal/extension/replacement collateral within this time limit shall be a default under this Agreement and shall allow the County to execute on the collateral. In addition, if Subdivider or Elite allows collateral to lapse at any time, no lots in the subdivision may be sold, conveyed or transferred, whether by Deed or Contract, after the expiration date of such collateral until the improvements identified on Exhibits A and B have been completed and final acceptance is received from the County. If replacement collateral is used for renewal, approval by the Board of County Commissioners is required.

3. **Construction of Improvements or Collateral**: No lots in the subdivision shall be sold, conveyed or transferred, whether by Deed or by Contract, nor shall building permits be issued until and unless the required improvements for the subdivision have been constructed and completed in accordance with the approved construction plans and preliminary acceptance is received from the County. In the alternative, lots within the subdivision may be sold, conveyed or transferred and/or have building permits issued upon receipt of collateral acceptable to the County, pursuant to this Agreement, which is sufficient to guarantee construction of the improvements in the attached Exhibits A and B.

4. **Design Standards**: The Subdivider and District agree that all of the public improvements to be completed as identified in Exhibit A shall be constructed in compliance with the following:

    a. All laws, resolutions and regulations of the United States, State of Colorado, El Paso County and its various agencies, affected special districts and/or servicing authorities.

    b. Such other designs, drawings, maps, specifications, sketches and other matter submitted to and approved by any of the above-stated- governmental entities.

5. **Timing of Construction and Acceptance**:

    a. **General**. All improvements, with the exception of the Homestead No. 2 Drainage Improvements, the Channel Improvements (as defined in subsection 5.b. herein below), and the Meridian System, including the Meridian System Connection, shall be completed by the Subdivider, meeting all applicable

standards for preliminary acceptance, within 24 (twenty-four) months from the date of notice to proceed in the Construction Permit for the Subdivision.

b. **Drainage Improvements and Channel Improvements.**

The drainage ways, detention ponds and bank stabilization (i.e., soil, riprap, and turf reinforcement matting along embankment toes and slopes) associated with this Subdivision (collectively, the "Homestead No. 2 Drainage Improvements") shall be completed by the Subdivider, meeting all applicable standards for preliminary acceptance, within twelve (12) months of recording the final plat.

The drainage improvements in Tract D, Sterling Ranch Filing No. 1, located in the Sand Creek Channel, which improvements consist of drop structures, check structures and similar stabilization or protection improvements (collectively, the "Channel Improvements"), shall be completed by the District within the time frames set forth in subsection 6.b. of the *Subdivision Improvements Agreement for Sterling Ranch Filing No. 1*, dated May 30, 2018, and recorded in the real property records for El Paso County, Colorado at reception number 218061175.

If the Subdivider determines that the completion date needs to be extended, the Subdivider shall submit a written request for a change in the completion date to the ECM Administrator at least 90 days in advance of the completion date. The request shall include the reasons for the requested change in completion date, the proposed new completion date, and prove collateral is in place to cover the extension time requested. The completion date for the Subdivision may be extended one time, for a period no longer than 6 months at the discretion of the ECM Administrator. Any additional request for extension of the completion date will be scheduled for hearing by the Board of County Commissioners. The ECM Administrator or the Board of County Commissioners may require an adjustment in the amount of collateral to take into account any increase in cost due to the delay including inflation.

c. **Vollmer Road**. As more particularly described in the Subdivision Improvements Agreement for Sterling Ranch Filing No. 1, the parties agree that the addition of two lanes to the existing two-lane cross section of Vollmer Road shall be completed no later than May 30, 2021, three years from the date of recording of Filing No. 1. In the event that any portions of the four lane cross section of Vollmer Road are not completed within the three year period, collateral sufficient in the opinion of the County to assure completion of the improvements must be posted by the Subdivider and a deadline by which such road improvements shall be completed shall be established by written agreement.

d. **Wastewater Treatment**. The District has an intergovernmental agreement, dated on or about September 11, 2014, with Meridian Service Metropolitan District for the provision of wastewater treatment services (the "Meridian System"). The District has also entered into an intergovernmental agreement with the City of Colorado Springs and Colorado Springs Utilities which

provides for temporary wastewater treatment services while the District completes its connection to the Meridian System. The agreement with the City provides for interim treatment services for a period of up to one year from the execution of the agreement, or August 12, 2020.

Subdivider shall provide construction drawings for the Meridian System Connection, including the sewer line and lift station, that have been signed by the Meridian Service Metropolitan District, as well as Financial Assurance Estimates for the completion of such improvements (the "Meridian Line Collateral") to the County prior to final plat recording. As set forth in section 1 above, Elite shall provide collateral to assure the completion of the Meridian System Connection. It is agreed by the parties hereto that if the Meridian System Connection is not substantially completed by June 30, 2020, or if the City of Colorado Springs has not by that date extended the interim wastewater agreement beyond the August 12, 2020 date, the County may draw on the Meridian System Connection Collateral to complete the Meridian System Connection. It is understood by the parties hereto that, should it become necessary for the County to draw on the Meridian System Connection Collateral to complete the c Meridian System Connection, the County intends to authorize and designate Elite Properties of America, Inc. as the appropriate entity to complete said connection. A copy of an agreement between the Subdivider and Elite addressing this potential work has been provided to the County. Finally, it is agreed that, should it become necessary for the County to draw on the Meridian System Connection Collateral to complete the connection, the County may impose a moratorium on the issuance of additional building permits on lots located in all recorded final plats at Sterling Ranch until the Meridian System Connection is completed.

e. **Briargate Parkway**. The following roadways shall be completed and ready for preliminary acceptance no later than six (6) months following final plat recording:

   i. the southerly two lanes of Briargate Parkway from Vollmer Road to Wheatland Drive, in accordance with the Briargate Parkway "Interim" Street Improvement Plans (approved by the County in connection with Sterling Ranch Filing No. 1), a copy of which is attached hereto as Exhibit A-1; and

   ii. Wheatland Drive from Briargate Parkway to Dines Boulevard, as identified on the Sterling Ranch Dines Boulevard and Wheatland Drive Street Improvement Plans (approved by the County in connection with Sterling Ranch Filing No. 1) a copy of which is attached hereto as Exhibit A-2.

6. **Construction Criteria**: The Subdivider and District agree, and the parties acknowledge that the construction of the improvements identified and guaranteed through this Subdivision Improvements Agreement shall follow the inspection and acceptance process that is identified in Chapter 5 of the County's Engineering Criteria Manual. This is to include among other things, a Preliminary Acceptance process, posting of appropriate

Warranty collateral at that time, and a 2-year warranty period prior to final acceptance. Where any inconsistency exists between Chapter 5 of the Engineering Criteria Manual and the Land Development Code with respect to these inspections, collateral and acceptance processes, the Engineering Criteria Manual is the controlling document.

7. **Plat Restriction Remedy**: It is mutually agreed pursuant to the provisions of Section 30-28-137(3) C.R.S. that the County or any purchaser of any lot, lots, tract or tracts of land subject to a plat restriction which is the security portion of a Subdivision Improvements Agreement shall have the authority to bring an action in any District Court to compel the enforcement of any Subdivision Improvements Agreement on the sale, conveyance, or transfer of any such lot, lots, tract or tracts of land or of any other provision of Article 28 of Title 30, Colorado Revised Statutes. Such authority shall include the right to compel rescission of any sale, conveyance, or transfer of any lot, lots, tract or tracts of land contrary to the provisions of any such restrictions set forth on the plat or in any separate recorded instrument, but any such action shall be commenced prior to the issuance of a building permit by the County where so required or other otherwise prior to commencement of construction on any such lot, lots, tract or tracts of land.

8. **Releases**: It is further mutually agreed that, pursuant to the provisions of Section 30-28-137 (2) C.R.S., and Chapter 5 of the County's Engineering Criteria Manual, as improvements are completed, the Subdivider may apply to the Board of County Commissioners for a release of part or all of the collateral deposited with said Board. Upon inspection and approval, the Board shall release said collateral. The County agrees to respond to an inspection request in a reasonable time upon receipt of the request. If the Board determines that any of such improvements are not constructed in substantial compliance with specifications it shall furnish the Subdivider and District a list of specific deficiencies and shall be entitled to withhold collateral sufficient to ensure such substantial compliance.

   If the Board of County Commissioners determines that the Subdivider or District will not construct any or all of the improvements in accordance with all of the specifications and the provisions of this Agreement, the Board of County Commissioners may withdraw and employ from the deposit of collateral such funds as may be necessary to construct the improvements in accordance with the specifications.

   In addition, and with respect to the Meridian System Connection only, either as an alternative to the withdrawal of collateral or in connection therewith, at the County's sole discretion, the County may request Elite to complete the Meridian System Connection in accordance with the approved plans and specifications for such connection set forth in Exhibit A-3. If the County draws on the posted collateral and Elite thereafter completes the improvements, the County shall reimburse Elite for such work in the amount of the collateral withdrawn or the cost of such work, whichever is less. If Elite declines to complete the Meridian System Connection, the County shall withdraw and employ from the deposit of collateral such funds as may be necessary to complete the Meridian System Connection in accordance with the specifications.

9. **Title Insurance**: The Subdivider agrees to provide the County with a title insurance commitment at time of final platting evidencing that fee simple title of all lands in the subdivision is vested with the Subdivider.

10. **Plat Approval**: The County agrees to approval of the final plat of the Homestead at Sterling Ranch Filing No. 2 Subdivision subject to the terms and conditions of this Agreement.

11. **Amendment**: Parties hereto mutually agree that this Agreement may be amended from time to time provided that such amendment be in writing and signed by all parties hereto.

12. **Effective Date**: This Agreement shall take effect on the date of approval of the Final Plat by the Board of County Commissioners.

13. **Traffic Impact Fees**: The Subdivider agrees for itself and its successors and assigns that Subdivider and/or its said successors and assigns shall be required to pay traffic impact fees in accordance with the El Paso County Road Impact Fee Program at or prior to the time of building permit application. This fee obligation, if not paid in full at final plat recording, shall be documented on plat notes and all sales documents to ensure that a title search would reveal such fee. The Subdivider agrees to the inclusion of Homestead at Sterling Ranch Filing No. 2 into the El Paso County Public Improvement District No. 2.

IN WITNESS WHEREOF, the parties have hereunto set their hands and seals the day and year below written.
