To whom it may concern,

Fast Signs will be installing an illuminated sign on the west side of the Tower 2864 building on behalf of CSU Pueblo. El Paso County Planning & Community Development Department requires us to inform you of this prior to installation as we are requesting administrative relief (up to 20% allowance) to exceed the sign size from 88.2sqft to 105.2sqft. The sign will be installed between the 7th & 9th floor to be seen from I-25. Installation date TBD based on permit approval - expected late September. We appreciate your understanding.

Kindest Regards,
