Subject: Sterling Ranch East Filing No. 1 Final Plat, 2nd Submittal – Final Comments (SF-22-035)

Hello Kari,

The Planning Division of the Parks and Community Services Department has reviewed the 2nd submittal of the Sterling Ranch East Filing No. 1 Final Plat application and has no additional comments on behalf of El Paso County Parks. This application and the following comments and recommendations were presented to and endorsed by the Park Advisory Board on January 11, 2023:

“This is a request by Classic Consulting, LLC, on behalf of Classic SRJ Land, LLC, for endorsement of Sterling Ranch East Filing No. 1 Final Plat, which includes 294 single-family residential lots on 122.98 acres, with a minimum lot size of 5000 square feet. The property is currently RS-5000 and is located east of Vollmer Road along the eastern banks of Sand Creek, situated between the future extensions of Sterling Ranch Road and Briargate Parkway.

The 2013 and 2022 update of the El Paso County Parks Master Plan shows no parks, trails, or open space impacted by this project. The Sand Creek Regional Trail is located immediately west and adjacent the property on the western banks of Sand Creek. As part of the recording of numerous final plats along the western side of Sand Creek, SR Land, LLC, is in the process of dedicating or has already dedicated to El Paso County numerous trail easements along this section of the regional trail. The current Sterling Ranch East Phase I Preliminary Plan shows a 15’ maintenance road on the east side of Sand Creek, which may be utilized by residents as an alternate pedestrian route to the Sand Creek Regional Trail. El Paso County appreciates the increased connectivity this additional creekside route will provide, however, construction and on-going maintenance will be the responsibility of the homeowner’s association or Sterling Ranch Metropolitan District.

Furthermore, the proposed Briargate Parkway Bicycle Route is located adjacent the north boundary of the project site along an east-west alignment. A dedicated public right-of-way already exists along the aforementioned bicycle route, so no easement requests are necessary at that location; however, the applicant is advised that multi-modal transportation options will be developed within the rights-of-way in the future.

The 2022 El Paso County Parks Master Plan includes an update to the Candidate Open Space Areas, utilizing a weighted overlay of numerous natural and man-made attributes which contribute to strong candidate open space areas. Sterling Ranch East Filing No. 1 falls completely within the bounds of the updated Black Forest South Candidate Open Space Area. Open space attribute values here include the Sand Creek corridor, surface water and wetland areas, floodplains, moderate wildlife impacts, and open high prairie grasslands along the southern boundary of Black Forest. Various aspects of the Preliminary Plan address these attributes and contribute in some degree to their conservation.

The current application shows 62.95 acres, or 51.2%, of open space, dedicated to public and private open space, parks, trail corridors, landscaping tracts, utilities, and drainage infrastructure. The project area includes an interconnected trail and

sidewalk system that affords the residents easy access to the surrounding neighborhood, proposed school sites, neighborhood and community parks, as well as the Sand Creek Regional Trail. The applicant's Letter of Intent states the following in regard to parks, trails, and open spaces:

- "The Sterling Ranch East Phase 1 Preliminary Plan includes a future community park, neighborhood parks, and open spaces, which are served by an interconnected system of trails to create a recreation-oriented community. This 147.7-acre system of parks, open spaces and trails is intended to provide a comprehensive off-street pedestrian circulation system to supplement the standard sidewalks along streets. Parks have been located so that residents have a ten-minute walk or less to these facilities. These parks and trails will be owned and maintained by the Sterling Ranch Metropolitan District."
- "Tract B Filing 1 as shown on the Preliminary Plan and Final Plat is proposed for a Community Park, consistent with the approved Sterling Ranch Sketch Plan. Programming and design of the community is in progress. The developer intends to enter into a Park Lands Agreement for the Community Park with EPC Community Services Department at the time of the Filing 1 plat. This park will be owned and maintain by Sterling Ranch Metro District."

Staff is pleased that both the Sterling Ranch East Phase I Preliminary Plan and Filing No. 1 Final Plat contain a large percentage of park and open space areas, including the aforementioned ~29-acre community park situated along Sand Creek in Filing No. 1, Tracts A and B, as well as numerous neighborhood parks, passive use areas, and open spaces located throughout the overall project site. Staff encourages the applicant to develop park, trail, active-use area, and playground plans that provide a wide variety of recreational choices to users of all age groups and abilities and submit the plans for agency review prior to the recording of the Final Plat. Lastly, staff recommends fees in lieu of land dedication for regional and urban park purposes, to be paid upon the recording of this Final Plat.

Recommended Motion (Filing No. 1 Final Plat):

The Park Advisory Board recommends that the Planning Commission and the Board of County Commissioners include the following conditions when considering and/or approving the Sterling Ranch East Filing No. 1 Final Plat: (1) recommend the developer explore a wide variety of park, trail, and open space amenities to strengthen recreational opportunities for residents of all ages and abilities; (2) submit the final Community Park plans for agency review prior to recording Filing No. 1 Final Plat, (3) fees in lieu of land dedication for regional park purposes in the amount of \$135,240 and urban park purposes in the amount of \$85,260 will be required at time of the recording of this Final Plat. A Park Lands Agreement may be an acceptable alternative to urban park fees provided the agreement is approved by the County and executed prior to recording this Final Plat."
