Proposed Request

BMC West Corp would like to install a storage building on the existing lumber yard lot that will be 180 ft long and 15 feet deep. The structure will have no plumbing and open on the front side to allow for equipment to move material into and out of this structure. The main purpose is to protect the contents from the weather. Electrical will be ran to this structure for equipment and lighting. This structure will not generate any additional traffic to or from this location. Please contact me with any questions or concerns, thank you.

Christopher Reid
