Norton Extended Family Guest House, AL-18-023

Please accept the following comments from El Paso County Public Health for the special use project referenced above:

- **Water service for both houses will be by an existing individual private well.**
- **Wastewater services for the project are to be provided by 2 separate onsite wastewater treatment systems (OWTS). The OWTS for the original house now slated to be the guesthouse was originally installed in 1989, and had the soil treatment area (STA) replaced with a new permitted and approved STA in 1994.**
- **The second house now under construction has a professional engineer designed OWTS which was permitted, installed and given final installation approval on 31 July 2018.**
- **No other public health issues noted with this request.**
