RE: The Ridge at Lorson Ranch Filing No. 1 (SF 22-004)  
Private Stormwater Quality Pond F  
As-built Certification

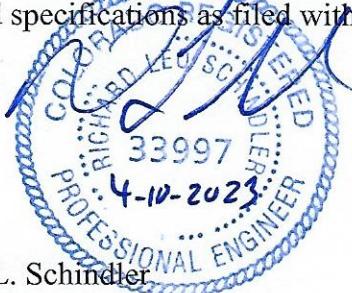

Dear Project Manager:

Per the approved construction drawings for The Ridge at Lorson Ranch Filing No.1 (PUD/SP 21-006 and SF 22-004), improvements were made to construct one water quality facility in compliance with the current El Paso County Drainage Criteria and the approved Final Drainage Report for this project.

Based upon this information and periodic site visits by field personnel to the project during significant/key phases of the stormwater BMP installation, Core Engineering Group, LLC is of the opinion that the detention and stormwater BMPs have been constructed in general compliance with the approved design plans and specifications as filed with El Paso County.

Statement Of Engineer of Record

To the best of my knowledge, information and belief, for the referenced project above, the improvements have been constructed in general compliance with the approved design plans and specifications as filed with El Paso County.
