RE: 1245 Dustrude Lane, Calhan, CO 80808  
EA21162 / WISP TOWER, Special Use  
Kellin Communications: Ellicott, CO WISP Tower

## **Colocation Analysis**

Dear Ms. Rivas,

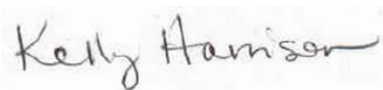

Please accept this as a Collocation Analysis for the above referenced project.

Windfield Enterprises LLC dba Kellin Communications has identified 1245 Dustrude Lane, Calhan, CO 80808 as a viable location for a freestanding Wireless Internet Service Provider (WISP) facility.

No freestanding facilities or towers exist within ten miles of the subject location. The proposed Kellin Communications WISP facility will provide Fixed Wireless Broadband service to an area that does not have access to reliable higher speed internet. The facility will provide "last mile" connectivity directly to homes and businesses where cable services are not available.

The location was chosen to achieve maximum service coverage with the least visual impact to adjacent properties. Coverage maps have been provided as part of this Special Use Permit submittal.

Thank you,
