The Proposed rezoning from residential and agricultural to Industrial.

I am against the development and rezoning proposition from agricultural to Industrial. This rezoning would ultimately bring down living standards and house values due to pollution and toxic environmental conditions. It is bad for the environment and the livestock and crops nearby. Agriculture will not thrive. Most of us move out of the filthy, dirty cities to raise our children in a healthy environment with fresh air. Not cancerous and toxic full of chemicals in our drinking water. Who do we sue for the chemicals that will be in our drinking water? This will drive down the housing market and make our land values sink.

I definitely vote No No No. They need to take their industrial building elsewhere.

Thank you Rose Boulahssas
