I will try one more time, maybe I'm doing something wrong? If that doesn't work, I give you authority to upload Properties/Sight Lines to my project.

Regards,
Mark

I got the notification from EDARP but it does not show a document attached. I will upload the one you sent me once you respond giving me authority to do it for you.

Let me know if you got the request and if it has a spot for you to upload a document? If not, you can send it to me via email and state in the email that you authorize me to upload the document for you.

Lacey,

I just checked my project in EDARP and my file Properties/Sight Lines is not there. I had to convert it from .ppt to a .doc file and apparently it didn't get loaded. That file is very important to my case regarding neighbor's view and making the case that it doesn't violate the developer's intent.

Can I upload it now?

Regards,

Mark

PS Thank you for noticing that.

Hi Mark,

I am reviewing our submissions for your BOA request and noticed that you mention reference to a document that I did not see in your submission packet. You refer to it as "Properties/Sight Lines.doc drawing". I just wanted to make sure I did not miss something that you may have meant to submit. I checked EDARP and did not see it there.

Lacey,

I'm not positive I got it uploaded on EDARP, so have attached it here. I authorize you to upload it for me.

Regards,
Mark

Lacey Dean
