Please accept the following comments from El Paso County Public Health regarding the project referenced above:

- **A record of an approved, permitted on-site wastewater treatment system (OWTS) for this property indicates the original OWTS was installed and approved in 1978. In 1999, an addition to the soil treatment area was installed and the OWTS was approved. The OWTS component locations are available on the El Paso County Assessor's Office website and on file at El Paso County Public Health under Tax Schedule Number (TSN) 4335000015.**
- **El Paso County Public Health recommends all components of the OWTS are located and protected from vehicular traffic, livestock and other means of compaction to help prolong the life of the system. A secondary site on the property must be preserved for the possibility of a repair, addition, or replacement of the existing soil treatment area. Fencing is preferred but other area identification methods accomplishing the same goal are approved.**
