Cloverleaf Metropolitan District, ID-20-4

Please accept the following comments from El Paso County Public Health regarding the project referenced above:

- **The proposed Cloverleaf Metropolitan District includes plans for oversight of 141 residential lots, trails, stormwater management, mosquito control, and street maintenance to name a few of the proposed services. Cloverleaf Metropolitan District is within the boundaries of Woodmoor Water and Sanitation District. Woodmoor Water and Sanitation District will supply the water and wastewater services to the area.**
- **The water quality basins proposed must have mosquito control responsibilities included as a part of the construction design and maintenance plan to help control mosquito breeding habitat and minimize the potential for West Nile Virus. Mosquito Control responsibilities are included in the Service Plan.**
- **El Paso County Public Health encourages planned walkability of residential communities with sidewalks, walking paths, and bike trails to surrounding neighborhood parks, schools and commercial areas. Walkability features promote exercise, help reduce obesity and lower the risk of heart disease.**
