WHEREAS, Wayne-Anthony Custom Homes did file an application with the El Paso County Planning and Community Development Department for approval of a Final Plat for the Mariah Trail Filing No. 1 Subdivision for property in the unincorporated area of El Paso County as described in Exhibit A, which is attached hereto and incorporated herein by reference; and

WHEREAS, a public hearing was held by this Commission on November 7, 2024; and

WHEREAS, based on the evidence, testimony, exhibits, consideration of the Master Plan for the unincorporated area of the County, presentation and comments of the El Paso County Planning and Community Development Department and other County representatives, comments of public officials and agencies, comments from all interested persons, comments by the general public, and comments by the El Paso County Planning Commission members during the hearing, this Commission finds as follows:

1. The application was properly submitted for consideration by the Planning Commission;
2. Proper posting, publication, and public notice were provided as required by law for the hearing before the Planning Commission;
3. The hearing before the Planning Commission was extensive and complete, that all pertinent facts, matters, and issues were submitted and that all interested persons and the general public were heard at that hearing;
4. All exhibits were received into evidence;
5. The proposed land use does not permit the use of an area containing a commercial mineral deposit in a manner which would interfere with the present or future extraction of such deposit by an extractor;

6. All data, surveys, analyses, studies, plans, and designs as are required by the State of Colorado and El Paso County have been submitted, reviewed, and found to meet all sound planning and engineering requirements of the El Paso County Subdivision Regulations.
7. For the above-stated and other reasons, the proposed amendment of the El Paso County Zoning Map is in the best interest of the health, safety, morals, convenience, order, prosperity, and welfare of the citizens of El Paso County.

WHEREAS, when approving a Final Plat, the Planning Commission and Board of County Commissioners shall find that the request meets the criteria for approval outlined in Section 7.2.1.D.3.f of the Land Development Code ("Code") (as amended):

1. The Subdivision is in conformance with the goals, objectives, and policies of the Master Plan;
2. The Subdivision is in substantial conformance with the approved Preliminary Plan;

4. Either a sufficient water supply has been acquired in terms of quantity, quality, and dependability for the type of Subdivision proposed, as determined in accordance with the standards set forth in the water supply standards [C.R.S. § 30-28-133(6)(a)] and the requirements of Chapter 8 of the Code, or, with respect to applications for Administrative Final Plat approval, such finding was previously made by the BoCC at the time of Preliminary Plan approval;
5. A public sewage disposal system has been established and, if other methods of sewage disposal are proposed, the system complies with State and local laws and regulations [C.R.S. § 30-28-133(6)(b)] and the requirements of Chapter 8 of the Code;
6. All areas of the proposed Subdivision which may involve soil or topographical conditions presenting hazards or requiring special precautions have been identified and that the proposed Subdivision is compatible with such conditions [C.R.S. § 30-28-133(6)(c)];
7. Adequate drainage improvements are proposed that comply with State Statute [C.R.S. § 30-28-133(3)(c)(VIII)] and the requirements of the Code and the Engineering Criteria Manual ("ECM");
8. Legal and physical access is provided to all parcels by public rights-of-way or recorded easement acceptable to the County in compliance with the Code and the ECM;
9. Necessary services, including police and fire protection, recreation, utilities, and transportation systems, are or will be made available to serve the proposed Subdivision;

10. The final plans provide evidence to show that the proposed methods for fire protection comply with Chapter 6 of the Code;
11. Off-site impacts were evaluated and related off-site improvements are roughly proportional and will mitigate the impacts of the Subdivision in accordance with applicable requirements of Chapter 8 of the Code;
12. Adequate public facilities or infrastructure, or cash-in-lieu, for impacts reasonably related to the proposed Subdivision have been constructed or are financially guaranteed through the SIA so the impacts of the Subdivision will be adequately mitigated;
13. The Subdivision meets other applicable sections of Chapter 6 and 8 of the Code; and
14. The extraction of any known commercial mining deposit shall not be impeded by this Subdivision [C.R.S. §§ 34-1-302(1), et seq.].

WHEREAS, a sufficient water supply has been acquired in terms of quantity, quality, and dependability for the type of Subdivision proposed, as determined in accordance with the standards set forth in the water supply standards [C.R.S. § 30-28-133(6)(a)] and the requirements of Chapter 8 of the Code.
