REGISTRATION OF EXISTING WELL

ISSUANCE OF THIS PERMIT DOES NOT CONFER A WATER RIGHT

CONDITIONS OF APPROVAL

- 1) This well shall be used in such a way as to cause no material injury to existing water rights. The issuance of this permit does not ensure that no injury will occur to another vested water right or preclude another owner of a vested water right from seeking relief in a civil court action.
- 2) Construction details for this existing well have not been provided to this office; therefore, it is not known if the construction of this well is in compliance with the Water Well Construction Rules, 2 CCR 402-2. The issuance of this permit does not relieve the well owner of responsibility or liability in the event contamination of the groundwater source results from the construction or use of this well, nor does the State Engineer assume any responsibility or liability should contamination occur.
- 3) This well is recorded and permit approved in accordance with CRS 37-92-602(5) for historical use as indicated herein and described in CRS 37-92-602(1)(b), being a well producing 8 GPM and used for ordinary household purposes inside one single family dwelling(s), fire protection, and the irrigation of not more than 600 square feet of home gardens and lawns.
- 4) The date of first beneficial use, as claimed by the applicant, is December 31, 1956.

NOTE: The uses identified in condition #3 above are based on the Applicant's written claim regarding the historical use of this well prior to May 8, 1972. These uses have not been verified or confirmed by field inspection from DWR staff. Any expanded use of this well occurring on or after May 8, 1972, or any use that had been abandoned by 10 or more consecutive years of non-use, shall not be covered by this permit.
