Re: Verizon Wireless Application for Modification of 14912246 / 5000268092 /411241
17610 MIDWAY RANCH ROAD, FOUNTAIN, CO 80817

Notice of 60 Day for Planning Approval

Dear Planning Department,

We write to you on behalf of Verizon Wireless with respect to the above-referenced Planning approval application submitted with this letter Application Type C. The Application proposes a modification to an existing wireless facility that meets the criteria for an EFR under 47 U.S.C. § 1455 (the “Spectrum Act”). Further, review and approval of the Application must be conducted administratively in accordance with Federal Communications Commission (“FCC”) order adopted October 18, 2014 (the “Spectrum Act Order”), codified as 47 C.F.R. §1.40001, and completed within 60 days of submittal in accordance with 47 C.F.R. §1.40001(c)(2).

Under 47 C.F.R. §1.40001, the review of the Application by County of El Paso is limited to determining whether it is an eligible facilities request that does not substantially change the physical dimensions of the [Base Station or Tower]. As you will see, the Application details the necessary criteria for a modification to constitute an Planning approval and describes how this specific modification project meets the Planning Approval requirements.

You may contact me at ehaxhimehmeti@fullertonengineering.com or 217-759-3480 with any questions you may have about this project or the EFR process. We look forward to working with you on this and other future wireless projects.

Regards,

Eron Haxhimehmeti
