PERMIT TO CONSTRUCT A WELL

CONDITIONS OF APPROVAL

- 1) This well shall be used in such a way as to cause no material injury to existing water rights. The issuance of this permit does not assure the applicant that no injury will occur to another vested water right or preclude another owner of a vested water right from seeking relief in a civil court action.
- 2) The construction of this well shall be in compliance with the Water Well Construction Rules 2 CCR 402-2, unless approval of a variance has been granted by the State Board of Examiners of Water Well Construction and Pump Installation Contractors in accordance with Rule 18.
- 3) Approved pursuant to CRS 37-90-105 for a change of source and location from that permitted under permit 222908. Issuance of this permit cancels permit 222908.
- 4) Water from this well may be used for domestic purposes inside ~~one (1) single family dwelling~~ **two (2) single family dwellings.**
- 5) The maximum pumping rate of this well shall not exceed 15 GPM.
- 6) The annual withdrawal of ground water from this well shall not exceed 1 acre-foot.
- 7) The irrigated area shall not exceed 1 acre of lawn and garden.
- 8) Production is limited to the Denver aquifer. Plain casing must be installed and grouted from ground surface to a minimum depth of 100 feet to prevent diversion of water from other zones. The depth of the well shall not exceed 360 feet, which is the estimated base of the Denver aquifer.
- 9) This well must be constructed within 300 feet of the location specified on this permit.
- 10) This permit has been approved with a change to the permit application form from that applied for by the applicant. You are hereby notified that you have the right to appeal the issuance of this permit, by filing a written request with this office within sixty (60) days of the date of issuance, pursuant to the State Administrative Procedures Act. (See Section 24-4-104 through 106, C.R.S.)

NOTE: The ability of this well to withdraw its authorized amount of water from this non-renewable aquifer may be less than the 100 years upon which the amount of water in the aquifer is allocated, due to anticipated water level declines.
