Site Address: 7923 Fontaine Blvd., Colorado Springs, CO 80901
Parcel #: 5521002016 / Zoning: A-5 CAD-O

File No TWR2417

Dear El Paso County Planning and Community Development,

AT&T requires to provide a minor modification to an existing rooftop telecommunications site by replacing its antennas on the existing facility located at the above-referenced site, in order to ensure that adequate and uninterrupted service is maintained at all times per our License Agreement with the Federal Communications Commission (FCC) as well as provide the residents and businesses in the area with enhanced services.

As shown on the Construction Drawings prepared by Black & Veatch dated 07/23/2024 AT&T's proposed installation consist principally of the following elements:

Rooftop Work: Remove (12) existing RRHs, (9) existing Antennas, and (3) existing TMAs. Install (12) proposed Antennas, (9) proposed RRHs, (1) proposed Surge Suppressor, (1) proposed Fiber Trunk, and (1) proposed DC Power Trunk.

Ground Work: Remove (6) existing Converters. Install (1) proposed Converters, (2) proposed Converter Kits, (2) proposed Rectifiers, (8) proposed Batteries, (1) proposed Flex 42, (1) proposed Generic BBU, and (1) proposed Surge Suppressors.

There will be no change in the height of the existing Rooftop facility.

The valuation of work for this project is approximately \$15,000.

This existing site shall comply with all Federal, State, and Local requirements as well as with all requirements of the Federal Communications Commission (FCC) with respect to Radio Frequency emissions. This work does not constitute a substantial change.

Please feel free to contact me if you have any questions or concerns, or if you are in need of additional information.

Thank you for your assistance in this matter.

Sincerely,

A handwritten signature in black ink that reads "C Stout". The "C" is large and loops around the "S", and "t" is written in a cursive style.
