Cusic Construction Rural Home Occupation, AL-17-029

Please accept the following comments from El Paso County Public Health regarding the proposed rural home occupation referenced above:

- **A record of an approved, permitted on-site wastewater treatment system (OWTS) for this property indicates the OWTS was installed and approved for a 6 bedroom residence in 1994. The OWTS component locations are on file at El Paso County Public Health and accessible through the El Paso County Assessor's Office website property search page. Please make sure that the existing soil treatment area (STA) and a nearby equally sized STA replacement area are protected from vehicular traffic and other means of compaction.**
- **Any engine maintenance or other wastes generated from the construction operation such as fluids, batteries, oil or other such waste products must be stored, disposed, or recycled per existing local, state or federal regulations.**
- **The property is served drinking water by a community water system.**
