Solberg Pit Special Use Amendment, AL-22-18

Please accept the following comments from El Paso County Public Health regarding the sand mining expansion project referenced above:

- **Wastewater services are not currently present, and because there are no permanent structures the use of sanitary portable toilets can be approved and relocated as needed for employees and sanitary service provider access.**
- **Earthmoving activity in excess of one acre, but less than twenty-five acres, requires a local Construction Activity Permit from El Paso County Public Health. Go to <https://www.elpasocountyhealth.org/service/air-quality/construction-activity-application> for more information.**
- **The existing APEN from the Air Pollution Control Division (APCD), Colorado Department of Public Health and Environment (CDPHE) may require modification based upon the Production Amount in the permit of 500,000 tons being exceeded in 2020 and 2021, and the proposed 79-acre mining area increase. Please contact the APCD for a determination.**
