RE: (ADM-21-050) Determination of Applicability of the El Paso County Guidelines and Regulations for Areas and Activities of State Interest (herein referred to as 1041 Regulations) as to the MVEA Vollmer South Project

Dear Ms. Rietz:

This letter is in response to your "1041 Applicability Determination for the MVEA Vollmer South Project" which includes a request for an exemption of the proposed line from the El Paso County Land Development Code Appendix B, Guidelines and Regulations for Areas and Activities of State Interest ("1041 Regulations"). The proposed action includes installation of approximately 1.75 miles of low-voltage underground electrical lines along the east side of Vollmer Road. Your letter states the low voltage distribution line is proposed to transmit electricity at 12.5 kilovolts (kV).

After reviewing your letter requesting applicability of the El Paso County Guidelines and Regulations for Areas and Activities of State Interest (1041 Regulations) to the proposed project, it is the determination of the El Paso County Planning and Community Development Department Director that the proposed project is not subject to the County's 1041 Regulations and, therefore, will not require a 1041 permit.

Please be advised that this determination is limited to the project as proposed. Additional review(s) for applicability of the 1041 Regulations will be required by the County for any future change(s) to the facility. A construction drawing review and ESQCP permit are required prior to the initiation of any ground disturbance. A Work in the Right-of-Way permit is required for any activities occurring within a County right-of-way.

If you have any questions or concerns regarding this determination, please contact myself or Ryan Howser, Planner II, at (719) 520-6049 or ryanhowser@elpasoco.com.
