Re: Ivilo Heights Rezone Letter of Intent

These two lots totaled
is more than 6.02
acres, please revise

Dear Mr. Fitzsimmons:

The property owner would like to request approval of a rezoning for 6225 Vessey Road, Colorado Springs, CO 80908. The parcel number is 5206000107. A separate minor subdivision application has been submitted requesting the property to be subdivided into 2 single-family residential lots of the following sizes: Lot 1: 3.08 acres and Lot 2: 3.08 acres. The site is 6.15 acres and is currently zoned RR-5 with no current overlay zones and would like to be rezoned to RR-2.5 with no overlay zones with the approval of the rezoning. The proposed rezoning meets the following criteria for approval of a rezone, as outlined in the El Paso County Land Development Code.

per the assessor's
site, this parcel is
6.02 acres, please
revise

- The zoning request complies with each of the Criteria of Approval in Chapter 5.
 - This area is shown as Large-Lot Residential Placetype in the El Paso County Master Plan adopted in 2021. Large-Lot Residential Placetype is defined in the Master Plan as single-family detached typically 2.5-acres or larger. The subdivision is proposing lots greater than 2.5-acres. The proposed subdivision is located in the Forested Key Area and an area of minimal change in the Areas of Change section. Development in the Forested Key Area and Area of Minimal Change allows for development of undeveloped land with minimal change to the prioritized rural and natural environments. The proposed subdivision meets this by proposing large-lot residential and maintaining large areas of undisturbed property to maintain the rural and natural environment. The proposed development fits within the 2040 Major Transportation Corridor Plan. Vessey Road is shown as being upgraded to a collector road by 2040. Sufficient right-of-way has been provided along the north property line of the proposed subdivision to accommodate the future improvements of Vessey Road. The proposed subdivision also fits within the Water Master Plan. The proposed subdivision will be served by individual wells. This is an acceptable method of providing water to a subdivision per the Water Master Plan.
 - The rezoning is in compliance with all applicable statutory provisions.
 - The proposed land use or zone district is compatible with the existing and

- permitted land uses and zone districts in all directions
- The site is suitable for the intended use, including the ability to meet the standards as described in Chapter 5, for the intended zone district.
 - Goal 8 of the 2022 El Paso County Parks Master Plan advocates to create a continuous, connected system of regional trails. The proposed project falls along the Palmer Divide Regional Trail, a proposed Primary Regional Trail in the Master Plan. Once completed, this trail will connect Black Forest Regional Trail with the Rock Island Trail connecting Black Forest Regional Park, the Pinerias Open Space, Homestead Ranch Regional Park and the Ramah State Wildlife Area. To comply with this proposed masterplan, the project will provide a 25-foot wide public easement along the south side of the dedicated right-of-way for Vessey Road for the construction of the Palmer Divide Regional Trail. The project will also be paying fees to help fund future development.
 - The water rights and augmentation plan in place for the existing parcel are adequate to meet the needs of the two (2) proposed lots for the subdivision on a 300-year basis. According to Water Court Decree Case Number 2022CW3087, the property has water rights adjudicated in the Dawson Aquifer, the Denver Aquifer, the Arapahoe Aquifer, and the Laramie-Fox Hills Aquifer. The proposed water source for the development would be the Dawson Aquifer, for which the replacement plan contained in Water Court Decree Case Number 22CW3087 was prepared for allowing the property to set aside sufficient amounts from the Laramie-Fox Hills and Arapahoe groundwater to replace post-pumping depletions. Results from the water quality test have been submitted with the minor subdivision application. These items satisfy the requirements outlined in the El Paso County Water Master Plan.
 - The proposed request is in compliance with the applicable requirements of the Land Development Code.
 - The proposed request complies with the definition of the proposed use. The proposed use is RR-2.5, Residential Rural District. This zoning district is a 2.5-acre district intended to accommodate low-density, rural, single family residential development. There are no use specific standards being requested at this time.
 - Service commitment letters have been provided by Black Forest Fire, Black Hills Energy, and Mountain View Electric Association fulfilling the necessary services to be provided. The project is located on Vessey Road, so no new transportation systems are required by the project. A 25-ft. easement is being provided for the future construction of Palmer Divide Regional Trail providing recreational opportunities.
 - There are no potentially sensitive natural or physical features within the area included within the request
 - The applicant will mail certified bulk notification letters to all adjacent property owners, within 500 feet of the subject property, within 7 days of the application being accepted by the County.
 - The proposed rezoning will generate approximately 9 trips in the A.M. peak hour, 3 trips in the P.M. peak hour and 28 daily trips. Per the El Paso Engineering Criteria Manual, a Traffic Impact Study is not required if daily vehicle trip is less than 100 or the peak hour trip generation is less than 10.

Questions regarding the proposed rezone can be directed to the following individuals:
