

May 7, 2019

To whom it may concern:

We are writing to express our safety concerns for the proposed project and rezoning of the Walden parcel of land for use as Monument Academy Middle and High School at the intersection of CO83 and Walker Road (CO105).

First, the traffic related concerns and the known dangers of CO83 in its current condition, recently making the list of notable intersections that the El Paso County Sheriff's department has identified as hazardous and warranting more patrol. It is challenging in its current condition with east-west connectors from CO 105 to CO 83. Driver's use an extreme high rate of speed and we often have the most extreme weather conditions of all of El Paso County in our area and surrounding Black Forest. We have had many days this winter filled with fog, blowing and drifting snow, black ice, and high snow accumulation that have been contributing factors in recent accidents and fatalities on CO105 and CO83. Most notably the horrible and tragic death of two teenagers on CO 105 due to black ice. This road is notorious for winter hazards and the thought of increasing the traffic already on that intersection and existing roadways with very inexperienced drivers, pose a huge risk to our youth and members of the community.

Also, the lack of busing available through the academy will increase the traffic substantially with very inexperienced drivers and adding more cars to the car pool drop-off and pick-up of up to 1000 students a day during morning and afternoon rush hours. Also, not noted in the traffic study, Kilmer Elementary School is just one mile from the location of the proposed academy, and the timing of both schools letting out and after school extracurricular activities will create severe congestion. This not only is a danger to our youth and other drivers, but it will increase the traffic on the internal residential streets as many will opt to drive through a residential community rather than sit in traffic. I urge you to look at the traffic impact of a school without busing and lack of planning, i.e. the current Monument Academy located further west on CO105, and the severe congestion it creates twice a day during morning commutes and evening rush hour.

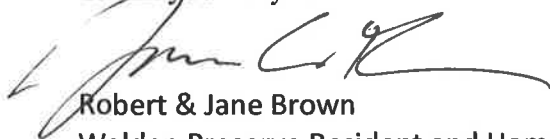

Regarding traffic concerns, my biggest concern is for the residents of the Black Forrest area, Walden, and surrounding rural communities and their safety in another evacuation of the area due to fire. This played out in 2013 and many people spent hours in traffic trying to flee the area. If you add 1000 more children, inexperienced drivers, and zero busing, to a previously known issue regarding evacuation, you are putting the lives of many residents and children at risk. Fire and evacuations are an unfortunate reality in our area.

We also have experienced a major increase recently in the number of cars that opt to take CO83 to Denver instead of I-25 due to the ongoing construction and widening project over the next four years. Traffic will only increase as the interstate is expanded and residents and commercial trucks look for faster routes to Denver. This has not been included in the traffic study. Also not included in the traffic study, are the plans to change the same parcel of land to commercial use and high density housing and what effects that will have on the roadways, congestion, residents, and evacuation routes. I implore you to do more research and traffic studies that include the safety concerns I have addressed above.

Lastly, as a resident in Black Forest and Walden Preserve, I reach out to you to consider why the people who live outside of town, chose to live there. We wanted a quiet lifestyle and to raise our children in a rural residential area. The thought of commercial use and high density housing will devastate the beauty of this area, increase the risk of fire to Black Forest, and devastate the existing wildlife habitats. Growth is inevitable, but proper planning and safety are paramount to all. Please take into consideration, the developers of this project are asking for a school to be zoned here, but they are also asking for the land to be changed and rezoned in its entirety to commercial use and high density housing to be proposed at a later date. I do feel this project is only a means to get to flip the land commercial without any thought to the risk that it brings to the students of the academy and the residents of the surrounding areas.

I appreciate your time and consideration of the concerns I have listed above.

Thank you for your time.

A handwritten signature in black ink, appearing to read "Robert & Jane Brown", written over a printed name.

Robert & Jane Brown
Walden Preserve Resident and Homeowner

I'm writing to express my opposition to the proposed Monument Academy School that is proposed at the intersection of Hwy 83/Hwy 105.

I live in the Walden subdivision directly east of this intersection and I fear my neighborhood will be overrun with cut-through traffic as commuters try to avoid the highway congestion this school will undoubtedly bring. The school will not have school buses, so the daily drop offs and pick-ups will create intolerable traffic – similar to the ongoing problems that exist at the Monument Academy on Hwy 105 /I 25 in Monument.

Traffic on Hwy 83 has increased dramatically in the last year. In summer months, the traffic is gridlocked on Hwy 105 from Baptist Rd to County Line Rd. In recent months traffic has increased due to the gap construction on I25. Additionally, a new Flying Horse subdivision that was recently approved will also increase traffic in the area. The estimates of 1000 additional cars per day at this intersection will be a nightmare to the residents of this community. I'm also concerned about evacuation routes during emergencies. I was stuck in a huge traffic jam during the Black Forest Fire evacuation – this school will increase the danger to the residents in the event of an emergency evacuation.

I strongly urge CDOT to deny this project.

Thank you,

Debbie Brown
18280 Woodhaven Drive
Colo Spgs, CO 80908

Nina Ruiz

Dear Community Advocates,

I am an educator. I work in Douglas County School District. I live in Walden. I have driven through the neighborhood and the roadways that will be impacted by this development for the past 7 years to get to work each day. In the last two years I have had to change my working hours due to traffic and infrastructure construction. I am fortunate that I am in a position that can accomodate this change.

As an educator, an exemplary education with modern learning environments is highly valued and safety is a top concern. A school in the neighborhood is not a detriment to our community. A school without consideration for student safety is. My lens is from a student safety perspective first and foremost. These are my concerns:

1. I have worked in three school districts and tried to think of a high school that was located at the intersection of two highways(In this case 105 and 83) and could not. If a school was adjacent to a highway, there was an access road off the highway to gain access that did not impact highway flow. Has this been addressed and studied at this intersection?
2. High schools have many night time events. How might this impact traffic flow? With a stadium, how might this impact the community that is rural and quiet? Do you even care how this impacts the neighborhood or are you just concerned about development at any cost?
3. If the YMCA will occupy property space with the school, how do we monitor and ensure student safety? This is an unusual situation. Property owned by the school can monitor and secure their property. A shared environment raises some saftey concerns. The YMCA is a public facility. Let's think about this. Can a YMCA member have full access to school property anytime? Can anyone from the public enter? If I had a student attending this school, public access by anyone would be a top conern of mine.
4. Why was this whole planning project kept secret from the community? Why is this not a collaborative open effort to create a win-win environment for everyone? Where is the transparency and community input? How can we make our devlopers accountable if they are allowed to secretly develop property without informing the public or community?

Thank you for reading this email and taking seriously the safety of our kids.
