Re: Well Permit Number 2757

Dear Office of the State Engineer,

On March 10, 2020 I attempted to locate a 1959 domestic well permit number 2575. Mr. Hamacher of Hamacher Well Works, Inc., a licensed well drilling company, assisted me in attempting to locate the 1959 well. After significant time searching the area identified for the well permit we were unable to locate any signs or remnants of a well. It was Mr. Hamacher's expert opinion that the well drilled in 1959 under permit number 2575 no longer exists. It was likely abandoned years if not decades ago but a Well Abandonment Report was never filed with the State of Colorado.

In conjunction with the search for the 1959 well we did search for and locate a second domestic well drilled in 2006 under permit number 267286. Hamacher Well Works, Inc. is completing the required work to abandon that well and we anticipate submitting the appropriate Well Abandonment Report when that work is completed.

Please contact me for any further information.

Sincerely,

Bill Herebic
