Marc,

In order to get you guys moving, I took a look at the final two documents that had comments from Gilbert. The FAE document was adjusted for the comment provided, however, I do not see where the comment below was addressed.

If we take a look at the set of plans, there is a total of 45 pages. I will give you the fact that two of them have an 'a' sheet (sheet 2a and 22a), however, that still makes 45 sheets in the set.

It is Gilbert's comment (and I agree) the title block should have 45 in the slot that says 'of'.

The screenshot shows a software interface with the following elements:

- A list of sheets on the left:
 - SHEETS 3-17 OF 41 STAGECOACH RD. / OLD STAGECOACH RD. / SHORTWALL DR. PLAN AND PROFILES
 - SHEETS 18-25 OF 41 LOCAL ROAD PLAN AND PROFILES
 - SHEETS 26-37 OF 41 ROUND-ABOUT PLANS
 - SHEETS 38-40 OF 41 STRIPING AND SIGNAGE PLANS
 - SHEETS 41 OF 41 DETAIL SHEET
- A blue comment box pointing to the 'ROUND-ABOUT PLANS' sheet:

Update to match the content. Round-about plans are missing unable to verify if review 3 comments were addressed.
- A red status box:

Unresolved - dsdlaforce
08/16/2018 11:13:51 AM
- A light blue box:

8/16/18 The submitted document contains 45 total sheets
- An 'APPROVALS:' section with a signature block for 'CLF CON ENGINEER'.
- A table below the signature block:

LE	DATE	10-2-17
1"= N/A	SHEET	1 OF 41
1"= N/A	JOB NO.	1096.11

If you disagree, please give me a call first thing in the morning, otherwise I will have Nina set up another slot for you to resubmit this document with the appropriate change to 45 total sheets.

I do believe that this is the last unresolved comment.
