I. EXECUTIVE SUMMARY

The following is a summary of general information regarding the proposed Districts provided for the convenience of the reviewers of this Service Plan. Please note that the following information is subject in all respects to the more complete descriptions contained elsewhere in this Service Plan.

Proposed Districts: Grandview Reserve Metropolitan District Nos. 1 - 4

Property Owner: 4 Site Investments, LLC (Schedule Numbers 4200000396 and 4200000328)

Developer: 4 Site Investments, LLC

Description of Development: The boundaries of the proposed Districts consist of approximately 767 acres of land located northwest of Highway 24, east of Eastonville Road, south of Latigo Boulevard, and north of Stapleton Road in El Paso County. Approximately 581 acres within the proposed Districts' boundaries are anticipated to consist of approximately 555 single family homes with an average value of \$385,000, approximately 749 single family homes with an average value of \$375,000, approximately 846 single family homes with an average value of \$340,000, approximately 1,110 single family attached homes with an average value of \$295,000, approximately 17 acres are anticipated to consist of commercial development, and approximately 146 acres are anticipated to be utilized for open space, a church site, and a school site (see Pages 4 and 5 of the financial plan provided as part of Exhibit D). The number of anticipated homes and the amount of commercial square footage remain estimates and may be altered depending on the final outcome of the development approval process. At this stage, it is anticipated that all developed residential lots will be subject to the same mill levies based upon the overall services to be provided to the development as a whole and all developed commercial properties will be subject to the same mill levies based upon the overall services to be provided to the development.

Proposed Improvements
to be Financed:

Proposed completion of an estimated \$285,000,000 of on and off-site public improvements including, but not limited to, on and off-site streets, roadway, water and sanitary sewer, stormwater and drainage, landscaping, and park and recreation improvements. The foregoing cost estimates are preliminary in nature and the ultimate costs may increase or decrease depending on numerous factors, many of which are out of the Developer's control. In particular, these initial cost estimates

only include the public improvement portion of costs and the total project improvement costs (including items such as dry utilities, etc.) will be significantly higher and will materially increase the overall development costs.

Proposed Ongoing Services:

The Developer and the proposed Districts intend to work with existing overlapping service providers to obtain the necessary consents and/or approvals for the provision of necessary services to the Districts including, but not limited to, water, streets, drainage, and parks and recreation. Because the overall development remains in its infancy, the specific services and potential overlapping service providers have yet to be determined. Based on current information, it is anticipated that the Districts will ultimately utilize other service providers to provide wastewater and fire protection services once the necessary improvements are constructed. More information can be provided once determined and known. Additionally, the proposed Districts shall have the power and authority to provide other services as authorized under the Special District Act including, but not limited to, mosquito control, television relay and translation, covenant enforcement and design review, and security services.

Infrastructure
Capital Costs:

Approximately \$285,000,000

Maximum Debt Authorization:

\$295,000,000 (combined for all Districts)

Proposed Maximum Debt Mill Levy:

50 Mills – for each residential district
35 Mills – for each commercial district

Proposed Maximum O & M Mill Levy:

10 Mills for each district

Proposed Special Purpose Mill Levy:

5 mills for covenant enforcement and design review –
for each residential district

Proposed Maximum Mill Levies:

Residential districts: 65 Mills inclusive of debt (50 mills for residential districts), operations and maintenance (10 mills), and covenant enforcement and design review (5 mills) for each District.
Commercial districts: 45 inclusive of debt (35 mills for commercial districts) and operations and maintenance (10 mills) for each District

Proposed Fees:

None anticipated at this time.

II. DEFINITIONS

The following terms are specifically defined for use in this Service Plan. For specific definitions of terms not listed below please also refer to the El Paso County Special District Policies, the El Paso County Land Development Code and Colorado Revised Statutes, as may be applicable.

Additional Inclusion Areas: means the property described in Section J of Article III.

Annual Report and Disclosure Statement: means the statement of the same name required to be filed annually with the Board of County Commissioners pursuant to Resolution 06-472 as may be amended.

Board(s): means the board of directors of any District, or in the plural, the boards of directors of all the Districts.

Board of County Commissioners: means the Board of County Commissioners of El Paso County.

Commercial District: means District No. 4, containing property classified for assessment as nonresidential.

Control District: means District No. 1, which is intended to include property owned by the organizers of the Districts, and whose Board of Directors is intended to be occupied by representatives of the organizers of the Districts, in order to direct the activities of the Districts to achieve an overall development plan for Public Improvements. References to "District No. 1" shall be deemed to refer to the Control District.

County: means El Paso County, Colorado

Debt: means bonds or other obligations for the payment of which the Districts have promised to impose an *ad valorem* property tax mill levy without such promise being subject to annual appropriation.

Developer Funding Agreement: An agreement of any kind executed between a special district and a Developer as this term is specifically defined below, including but not limited to advance funding agreements, reimbursement agreements or loans to the special district from a Developer, where such an agreement creates an obligation of any kind which may require the special district to re-pay the Developer. The term "Developer" means any person or entity (including but not limited to corporations, venture partners, proprietorships, estates and trusts) that owns or has a contract to purchase undeveloped taxable real property greater than or equal to ten percent (10%) of all real property located within the boundaries of the special district. The term "Developer Funding Agreement" shall not extend to any such obligation listed above if such obligation has been converted to Debt issued by the special district to evidence the obligation to repay such Developer Funding Agreement, including the purchase of such Debt by a Developer.

District No. 1: means the Grandview Reserve Metropolitan District No. 1 (also known as the Control District) as described in this Service Plan.

District No. 2: means the Grandview Reserve Metropolitan District No. 2.

District No. 3: means the Grandview Reserve Metropolitan District No. 3.

District No. 4: means the Grandview Reserve Metropolitan District No. 4.

External Financial Advisor: means a consultant that: (i) advises Colorado governmental entities on matters relating to the issuance of securities by Colorado governmental entities, including matters such as the pricing, sales and marketing of such securities and the procuring of bond ratings, credit enhancement and insurance in respect of such securities; (ii) shall be an underwriter, investment banker, or individual listed as a public finance advisor in the Bond Buyer's Municipal Market Place; and (iii) is not an officer or employee of the District for which External Advisor Services are being rendered; and (iv) has not been otherwise engaged to provide services in connection with the transaction related to the applicable Debt.

Financing Districts: means District Nos. 2 - 4, which are expected to include residential and/or commercial development that will produce the required revenue to fund the Public Improvements and any operations and maintenance costs.

Initial District Boundaries: means the initial boundaries of the Districts as described in **Exhibit A** and as legally described in the legal description found at **Exhibit A**.

Legislative Adjustment: means if, on or after January 1, 2021, there are changes in the method of calculating assessed valuation or any constitutionally mandated tax credit, cut, or abatement, the Maximum Debt Service Mill Levy, Maximum Operational Mill Levy, or the Maximum Special Purpose Mill Levy limitation may be increased or decreased to reflect such changes, such increases or decreases to be determined by the Board in good faith (such determination to be binding and final) so that to the extent possible, the actual tax revenues generated by the mill levy, as adjusted for changes occurring after January 1, 2021, are neither diminished nor enhanced as a result of such changes.

Local Public Improvements: means facilities and other improvements which are or will be dedicated to the County or another governmental or quasi-governmental entity for substantially public use, but which do not qualify under the definition of Regional Public Improvements. Examples would include local streets and appurtenant facilities, water and sewer lines which serve individual properties and drainage facilities that do not qualify as reimbursable under adopted drainage basin planning studies.

Material Modification: has the meaning described in Section 32-1-207, C.R.S., as it may be amended from time to time, which, among other things, outlines what constitutes a material modification and the procedure for making a modification to a service plan.

Maximum Combined Mill Levy: The maximum combined ad valorem mill levy the applicable District may certify against any property within said District for any purposes.

Maximum Debt Authorization: means the maximum principal amount of Debt that the Districts combined may have outstanding at any time, which under this Service Plan is \$295,000,000.

Maximum Debt Service Mill Levy: The maximum ad valorem mill levy the applicable District may certify against any property within said District for the purpose of servicing any Debt incurred by or on behalf of said District.

Maximum Operational Mill Levy: The maximum ad valorem mill levy the applicable District may certify against any property within said District for the purposes providing revenues for ongoing operation, maintenance, administration or any other allowable services and activities other than the servicing of Debt. This Maximum Operational Mill Levy is exclusive of any Maximum Special Mill Levy which might be separately authorized.

Maximum Special Purpose Mill Levy: means the maximum ad valorem mill levy which is allowed in addition to the allowable Maximum Debt Service Mill Levy and Maximum Operation Mill Levy to be used for covenant enforcement and design review (if provided by the District) by the Residential Districts.

Planning and Community Development Department: The department of the County formally charged with administering the development regulations of the County.

Public Improvements: Those improvements constituting Regional Public Improvements and Local Public Improvements collectively including, but not limited to, on and off-site improvements such as on and off-site streets, roadway, bridges, water and sanitary sewer, stormwater and drainage, landscaping, and park and recreation improvements.

Regional Public Improvements: Facilities and other improvements which are or will be dedicated to the County, State, or another governmental or quasi-governmental entity for substantially public use, and which serve the needs of the region.

Residential Districts: District Nos. 1-3, inclusive, containing property classified for assessment as residential.

Revenue Obligations: means bonds or other obligations not subject to annual appropriation that are payable from a pledge of revenues other than *ad valorem* property taxes.

Service Plan: means this Service Plan for the Districts.

Special District Act: means Section 32-1-101, et seq., of the Colorado Revised Statutes, as amended from time to time.

State: means the State of Colorado.

Underlying Land Use Approvals: means Board of County Commissioners approval of the applicable land use plans that form the basis for the need for the Districts and its proposed financing plan and/or services. Such approvals may be in the form of one or a combination of Sketch Plans, Generalized Planned Unit Development (PUD) Development Plans, site-specific PUD plans, or subdivision plans.

III. INTRODUCTION

A. Overall Purpose and Intent.

The Districts will be created pursuant to the Special District Act, and are being created with a Control District/Financing District structure under El Paso County policies. The Districts are independent units of local government, separate and distinct from the County, and, except as may otherwise be provided for by State or local law or this Service Plan, their activities are subject to review by the County only insofar as they may deviate in a material matter from the requirements of the Service Plan. It is intended that the Districts, in their discretion, will provide a part or all of various Public Improvements, as defined herein, necessary and appropriate for the development of a project within the unincorporated County to be known as “Grandview Reserve” (the “Project”). The Public Improvements will be constructed for the use and benefit of all anticipated inhabitants, property owners and taxpayers of the Districts. Offsite Public Improvements will also benefit regional users. The primary purpose of the Districts will be to finance the construction of these Public Improvements. Additional major purposes may include covenant enforcement, design review, and park and recreation purposes.

District No. 1 is proposed to be the Control District, and is expected to coordinate the financing and construction of all Public Improvements. District Nos. 2 - 4 are proposed to be the Financing Districts, and are expected to include residential and/or commercial development that (in coordination with District No. 1) will produce the required revenue to fund the Public Improvements and any operations and maintenance costs.

B. Need For The Districts.

There is a need for creation of the Districts. A multiple district structure has been chosen to account for the project to be developed in multiple phases. The phasing of development will allow for more efficient financing for the overall project. As further explanation, the Districts will serve a large project with significant infrastructure and phasing will require multiple districts to accommodate any delay in development and for a coordinated approach to infrastructure financing. The multiple district structure also allows bonding to be done in the most efficient manner by segregating the bonds to completed portions of the development instead of being forced to issue bonds early in the project.

There are currently no other governmental entities, including the County, located in the immediate vicinity of the Districts that consider it desirable, feasible or practical to undertake the planning, design, acquisition, construction, installation, relocation, redevelopment, and financing of

the Public Improvements needed for the Project. It is acknowledged that the Districts are located in the vicinity of 4-Way Ranch Metropolitan District No. 2 (“4-Way Ranch”) and Woodmen Hills Metropolitan District (“Woodmen Hills”). It is not feasible, however, for the property to be included into either 4-Way Ranch or Woodmen Hills and receive the support it needs for development. First, Woodmen Hills is unable to finance and provide necessary water and sanitation system infrastructure internal to the development. Second, the Board of Directors of 4-Way Ranch determined that it is unable to provide or finance the necessary infrastructure for the development and therefore approved the exclusion of the property within the Project. Moreover, the Board of Directors of 4-Way Ranch have submitted a letter to the Board of County Commissioners expressing its support of the formation of the Districts and further explaining the inability of 4-Way Ranch to provide the service, improvements, and funding required for the Grandview Reserve development. Based on the foregoing, formation of the Districts is necessary in order for the Public Improvements required for the Project to be provided in the most economic manner possible.

C. County Objectives In Forming The Districts.

The County recognizes the Districts as independent quasi-municipal entities which are duly authorized for the purposes and functions identified in the Service Plan. Future County involvement in the affairs of the Districts will generally be limited to functions as required by the Colorado Revised Statutes, reporting and disclosure functions, determinations as to compliance with the limits as set forth in this Service Plan or any conditions attached to its approval, as well as additional activities or relationships as may be stipulated in any intergovernmental agreements which may be entered into between the Districts and the County in the future.

In approving this Service Plan, the objectives of the County include an intent to allow the applicant reasonable access to public tax-exempt financing for reasonable costs associated with the generally identified Public Improvements and to allow the applicant the ability to prudently obligate future property owners for a reasonable share of the repayment costs of the Public Improvements which will benefit the properties within the Districts.

It is the additional objective of the County to allow for the Districts to provide for the identified ongoing services which either cannot or will not be provided by the County and/or other districts.

D. Multiple District Structure.

1. Multiple District Structure. This Service Plan sets forth the general parameters for the working relationship between District No. 1 (as the Control District) and the Financing Districts. This structure is intended to provide for the fair and equitable allocation of the costs of the Public Improvements and related services within the various development areas of the Project. In addition, the multiple district structure will support the phased development of the Project, as well as the designation of the residential and commercial development among the Districts.

District No. 1 is expected to be responsible for managing the construction, acquisition, installation and operation of the Public Improvements. The Financing Districts (District Nos. 2 through 4) are expected to be responsible for providing the funding and tax base needed to support

the plan for financing the Public Improvements and for operation, maintenance and administrative costs. It is anticipated that the District Nos. 2 & 3 (Residential Districts) will consist primarily of residential units and the commercial uses will be located in District No. 4 (Commercial District). The allocation of responsibility for all such functions among the Districts may occur in any combination based upon the best interests of the property owners and residents within the Project.

Each District will be authorized to provide improvements and services, including but not limited to acquisition of completed improvements, to the property within and without their respective legal boundaries, as they may be amended from time to time. Debt may be issued by either District No. 1 and/or the Financing Districts as appropriate to deliver the improvements and services to the property within the Project.

Due to the interrelationship between the Districts, various agreements are expected to be executed by one or more of the Districts clarifying the respective responsibilities and the nature of the functions and services to be provided by each District. The agreements will be designed to help assure the orderly development of essential services and facilities resulting in a community that is an aesthetic and economic asset to the County.

2. Benefits of Multiple District Structure. The use of a multiple district structure as described in this Service Plan serves the best interests of the County, the applicant and the future taxpayers within the Districts. The benefits of using the multiple district structure include: (a) coordinated administration of construction and operation of public improvements and delivery of those improvements in a timely manner; and (b) assurance that improvements required by the County are constructed in a timely and cost effective manner.

a. Coordinated Services. As presently planned, development of the Project will proceed in phases, which will require the extension of public services and facilities. The multiple district structure will assure that the construction and operation of each phase of Public Improvements, including Public Improvements such as parks, channels, and drainage, will be administered consistent with a long-term construction and operations program. Use of District No. 1 to direct financing, construction, acquisition and installation of improvements and for management of operation and maintenance needs will facilitate a well-planned financing effort through all phases of construction, which will assist in the coordinated extension of services.

b. Debt Allocation. Allocation of the responsibility for paying debt for capital improvements will be managed through development of a unified financing plan for these improvements and through development of an integrated operating plan for long-term operations and maintenance for those improvements that are not dedicated to and accepted by the County or other governmental entity, but retained by the Districts as appropriate. Use of District No. 1 to manage these functions will help assure that no area within the Project becomes obligated for more than its share of the costs of capital improvements and operations. Neither high nor low-density areas will bear a disproportionate burden of debt and operating costs. Additionally, equity is also promoted due to the fact that there must be a rational relationship between the land that is subject to a District's mill levy and the improvements or services being funded.

3. Transition to Single District Structure. Once the Districts have achieved full

development, including completion of (i) the necessary on and off-site public improvements; (ii) the contemplated residential and commercial development components; and (iii) repayment of all outstanding debt, the Districts may thereafter take the appropriate steps to transition to a single district structure.

E. Specific Purposes - Facilities and Services.

Each of the Districts are authorized to provide the following facilities and services and those further described in the Special District Act, both within and without the boundaries of the Districts as may be necessary:

1. Water. The Districts shall have the power and authority to finance, design, construct, acquire, install, maintain, and provide for potable water and irrigation water facilities and systems, including, but not limited to, water rights, water supply, treatment, storage, transmission, and distribution systems for domestic, irrigation, fire control, and other public purposes, together with all necessary and proper reservoirs, treatment facilities, wells, equipment, and appurtenances incident thereto, which may include, but shall not be limited to, transmission lines, pipes, distribution mains and laterals, storage facilities, and ditches, with all necessary and incidental and appurtenant facilities, land and easements, together with extensions and improvements thereto. The Districts shall have the power and authority to contract with other private or governmental entities to provide any or all of the services the Districts are authorized or empowered to provide. To the extent necessary, the Districts shall dedicate any necessary improvements to one or more governmental entities that provide service (“Provider Jurisdiction”) in accordance with the Provider Jurisdiction rules and regulations.

It is anticipated that District No. 1 will provide water services to the property within the Districts’ boundaries. The initial planning of the land plan for the property within the Districts’ boundaries references the County’s Master Plan goals and implementation strategies to incorporate efficiency and conservation. The sketch plan submitted to the County increases density and maximizes open space surrounding the natural tributary areas, thus decreasing irrigation consumption and discouraging individual wells. The landform grading is focused on limiting excavation within shallow ground water levels to deter ground water surfacing and associated groundwater re-introductions. Swales will be utilized within the individual planning areas to promote groundwater recharge. Future local wells, mostly in the Arapahoe and Laramie Fox-Hills formations, will provide water for the property located within the District. It is anticipated that off-site wells will likely be needed (from neighboring lands owned by the Developer) for full build-out. In addition, potential future interconnections may be made with neighboring districts and service providers. Finally, the Districts will implement strategies to reduce water usage, including tiered water rates, multiple stages of water restrictions, and end-user sustainability practices.

2. Sanitation. The Districts shall have the power and authority to finance, design, construct, acquire, install, maintain, assess tap or other facility fees, and provide for sanitary sewers and to transport wastewater to an appropriate wastewater treatment facility, with all necessary and incidental and appurtenant facilities, land and easements, together with extensions and improvements thereto. To the extent necessary, the Districts shall dedicate any necessary improvements to one or more governmental entities that provide service (“Provider Jurisdiction”) in accordance with the Provider Jurisdiction rules and regulations. It is anticipated that that the Districts will construct or

cause to be constructed the sanitary sewer infrastructure needed for the Project and will dedicate such infrastructure to Cherokee Metropolitan District for operation and maintenance. The Districts may enter into an intergovernmental agreement with Cherokee Metropolitan District to govern this relationship. In the unlikely event the Districts are not able to reach an agreement with Cherokee Metropolitan District, the Districts may renew discussions with Woodmen Hills Metropolitan District for sewer treatment services.

3. Street Improvements, Transportation and Safety Protection. The Districts shall have the power and authority to finance, design, construct, acquire, install, maintain, and provide for arterial and collector streets and roadway improvements including, but not limited to, bridges, curbs, gutters, culverts, storm sewers and drainage facilities, retaining walls and appurtenances, sidewalks, paving, lighting, grading, landscaping, streetscaping, placement of underground utilities, snow removal, tunnels, and other street improvements, and architectural enhancements to any or all of the above, with all necessary and incidental and appurtenant facilities, land and easements, together with extensions and improvements thereto. It is anticipated that most of the foregoing street improvements, except underground utilities, will be dedicated by the Districts to the County upon completion and, following acceptance by the County, the County will own, operation and maintain such street improvements.

4. Drainage. The Districts shall have the power and authority to finance, design, construct, acquire, install, maintain, and provide for flood and surface drainage improvements, including, but not limited to, culverts, dams, retaining walls, access way inlets, detention and retention ponds, paving, roadside swales, curbs and gutters, disposal works and facilities, water quality facilities, and all necessary and proper equipment, with all necessary and incidental and appurtenant facilities, land and easements, together with extensions and improvements thereto. To the extent necessary, the Districts shall dedicate any necessary improvements to one or more governmental entities that provide service (“Provider Jurisdiction”) in accordance with the Provider Jurisdiction rules and regulations. It is anticipated that the Districts will maintain drainageways, detention and water quality facilities, unless and until the County develops a stormwater maintenance district, division, or other entity.

5. Parks and Recreation. The Districts shall have the power and authority to finance, design, construct, acquire, install, maintain, and provide for public park and public recreation centers and other recreation facilities, services, or programs including, but not limited to, grading, soil preparation, landscaping, sprinkler systems, fencing, pavilions, playgrounds, playing fields, open space, bike trails, pedestrian trails, pedestrian bridges, picnic areas, common area landscaping, streetscaping, storage buildings and facilities, weed control, paving, decorative paving, outdoor functional and decorative lighting, community events, and other services, programs and facilities, with all necessary and incidental and appurtenant facilities, land and easements, together with extensions and improvements thereto. To the extent necessary, the Districts shall dedicate any necessary improvements to one or more governmental entities that provide service (“Provider Jurisdiction”) in accordance with the Provider Jurisdiction rules and regulations. It is anticipated that the Districts will own, operate, and maintain the park and recreation improvements and facilities.

The Districts shall not have the authority to apply for or utilize any Conservation Trust (“Lottery”) funds without the express prior consent of the Board of County

Commissioners. The Districts shall have the authority to apply for and receive any other grant funds, including, but not limited to, Great Outdoors Colorado (GOCO) discretionary grants. Such approval, although required, is not considered to be a material modification which would require the need to revise this Service Plan.

6. Mosquito Control. The Districts shall have the power and authority to finance, design, construct, acquire, install, operate, maintain, and provide for systems and methods for the eradication and control of mosquitoes, including but not limited to elimination or treatment of breeding grounds and purchase, lease, contracting or other use of equipment or supplies for mosquito control.

7. Fire Protection. The Districts shall not be authorized to plan for, design, acquire, construct, install, relocate, redevelop, finance, operate or maintain fire protection facilities or services, unless such facilities and services are provided pursuant to an intergovernmental agreement with the applicable Fire District. The authority to plan for, design, acquire, construct, install, relocate, redevelop or finance fire hydrants and related improvements installed as part of the water system shall not be limited by this provision. It is anticipated that the Districts will cooperate with the applicable Fire District in regard to placement and construction of a fire station.

8. Television Relay and Translation. The Districts shall have the power and authority to finance, design, construct, install, acquire, operate, and maintain television relay and translator facilities, with all necessary and incidental and appurtenant facilities, land and easements, together with extensions and improvements thereto.

9. Covenant Enforcement and Design Review. The Districts shall have the power and authority to provide covenant enforcement and design review services subject to the limitations set forth in C.R.S. § 32-1-1004(8), as it may be amended from time to time, which addresses covenant enforcement and design review services as additional powers of a metropolitan district under certain circumstances. If utilized, the covenant enforcement and design review powers will be coordinated through District No. 1 on behalf of all of the Districts pursuant to an Inter-District Intergovernmental Agreement to be executed by the Districts.

10. Security Services. The Districts shall have the power and authority to provide security services within the boundaries of the Districts, subject to the limitations set forth in C.R.S. § 32-1-1004(7), as it may be amended from time to time, which addresses security services as an additional power of a metropolitan district under certain circumstances. In no way is this power and authority intended to limit or supplant the responsibility and authority of local law enforcement (i.e., the El Paso County Sheriff's Department) within the boundaries of the Districts.

11. Solid Waste Disposal. The Districts have no plans to provide solid waste disposal services.

12. General. Because the overall development remains in its infancy, the specific services and potential overlapping service providers have yet to be determined. Based on current information, it is anticipated that the Districts will ultimately utilize other service providers to provide wastewater and fire protection services once the necessary improvements have been constructed.

More information can be provided once determined and known. Further, to the extent any of the above referenced facilities, improvements and services are dedicated and accepted by the County, the County shall own, operate and maintain such accepted facilities and related improvements. The Districts shall be authorized to own, operate and maintain any facilities, improvements and appurtenances not otherwise dedicated to and accepted by any Provider Jurisdiction, subject to any applicable County rules and regulations.

F. Other Powers.

1. Amendments. The Districts shall have the power to amend this Service Plan as needed, subject to appropriate statutory procedures as set forth in Section 32-1-207, C.R.S., as it may be amended from time to time, which, among other things, outlines what constitutes a material modification and the procedure for making a modification in a service plan.

2. Authority to Modify Implementation of Financing Plan and Public Infrastructure. Without amending this Service Plan, the Districts may defer, forego, reschedule or restructure the financing and construction of certain improvements and facilities, to better accommodate the pace of growth, resources availability, and potential inclusions of property within the Districts.

G. Other Statutory Powers.

The Districts may exercise such powers as are expressly or impliedly granted by Colorado law, if not otherwise limited by the Service Plan or its conditions of approval.

H. Eminent Domain.

The Districts may exercise the power of eminent domain only as necessary to further the clear public purposes of the Districts. Currently, the Districts do not expect to use the power of eminent domain.

The power of eminent domain shall be limited to the acquisition of property that the applicable District intends to own, control or maintain by the applicable District or other governmental entity and is for the material use or benefit of the general public. The term “material use or benefit for the general public” shall not include the acquisition of property for the furtherance of an economic development plan, nor shall it include as a purpose an intent to convey such property or to make such property available to a private entity for economic development purposes. The phrase “furtherance of an economic development plan” does not include condemnation of property to facilitate public infrastructure that is necessary for the development of the Project.

I. Intergovernmental Agreements (IGAs).

The Districts are authorized to enter into IGAs to the extent permissible by law. As of the date of approval of this Service Plan, and as noted below, the Districts intend to enter into an intergovernmental agreement which shall govern the relationships by and among the Districts with respect to the financing, construction and operation of the Public Improvements contemplated herein.

The Districts will establish a mechanism whereby any one or more of the Districts may separately or cooperatively fund, construct, install and operate the improvements. As noted earlier, the multiple district structure fits within an intended multiple phase development plan. The phasing of development will allow for more efficient financing for the overall project.

J. Description Of Proposed Boundaries And Service Area.

1. Initial District Boundaries. A vicinity map showing the general location of the area that may be served by the Districts is included as part of **Exhibit A**. A map of the initially included properties is included as part of **Exhibit A**, with legal descriptions of each of the Districts' boundaries also found as part of **Exhibit A**.

2. Additional Inclusion Areas/Boundary Adjustments. The Districts shall be authorized to include territory in accordance with applicable provisions of the Special District Act. Further, in order to accommodate the needs of Project phasing and other contingencies, the boundaries of the Districts may be adjusted via the inclusion or exclusion within the combined area of the Initial District Boundaries in accordance with the applicable provisions of the Special District Act. Notwithstanding the foregoing, the Districts are prohibited from including additional property within the Districts' boundaries if the property is within the corporate limits of the City of Colorado Springs without express prior consent of the City of Colorado Springs.

3. Extraterritorial Service Areas. The Districts do not anticipate providing services to areas outside of the Initial District Boundaries and Additional Inclusion Areas.

4. Analysis Of Alternatives. It is anticipated that the Districts, collectively, will undertake the financing and construction of the improvements contemplated herein. Specifically, the Districts shall enter into an intergovernmental agreement which shall govern the relationships between and among the Districts with respect to the financing, construction and operation of the improvements contemplated herein. The multiple district structure will support the phased development of the Project, as well as the fact that although the Financing Districts will consist primarily of residential units, the limited commercial development will be located in one or more of the Financing Districts. The Districts will establish a mechanism whereby any one or more of the Districts may separately or cooperatively fund, construct, install and operate the improvements. As stated above, neither the County nor any other public entity, including 4-Way Ranch Metropolitan District and Woodmen Hills Metropolitan District, is available or willing to provide the Public Improvements required.

5. Material Modifications/Service Plan Amendment. Material modifications of this Service Plan shall, at a minimum, trigger the need for prior approval of the Board of County Commissioners at an advertised public hearing and may require a need for a complete re-submittal of an amended Service Plan along with a hearing before the County's planning commission. For the purpose of this Service Plan the following changes shall be considered material modifications:

a. Any change in the basic services provided by the Districts, including the addition of any types of services not authorized by this Service Plan.

b. Any other matter which is now, or may in the future, be described as a material modification by the Special District Act.

c. Imposition of a mill levy in excess of any of the Maximum Mill Levies as authorized in this approved Service Plan.

d. Issuance of Debt in excess of the Maximum Debt Authorization authorized in this Service Plan.

e. Creation of any sub-districts as contemplated in the Special District Act.

f. Inclusion into any District of any property over five (5) miles from the combined area of the Initial District Boundaries.

g. Issuance of any Debt with a maturity period of greater than thirty (30) years from the date of issuance of such Debt.

IV. DEVELOPMENT ANALYSIS

A. Existing Developed Conditions.

At the present time there are no public improvements within the boundaries of the proposed Districts and there is no population.

B. Total Development At Project Buildout.

At complete Project build-out, development within the Districts is planned to consist of approximately 555 single family homes with an average value of \$385,000, approximately 749 single family homes with an average value of \$375,000, approximately 846 single family homes with an average value of \$340,000, approximately 1,110 single family attached homes with an average value of \$295,000, and approximately 20,000 square feet of commercial development (see Pages 4 and 5 of the financial plan information provided as part of Exhibit D). The total estimated population of the Districts upon completion of the residential development is 8,125 people (3,250 residential units x 2.5 persons per residential unit). The rate of absorption is a projection based on information from the Developer and is used for estimating the financial plan. There is no way to accurately predict absorption due to variables such as the economic factors, housing demand, land-use approval timing, building supply chains, and labor availability. In view of these factors, the bond underwriter projects the potential ability of the Districts to discharge the proposed debt per the statutory requirement. If absorption is delayed or accelerated, the bond issuance parameters will reflect those changes at the time of issuance.

C. Development Phasing And Absorption.

Absorption of the project is projected to take approximately fourteen (14) years, estimated to begin in 2022 (year) and end in 2036 (year) and is further described in the Development

Summary Table found at **Exhibit B**. Maps depicting the Public Improvements are attached as part of **Exhibit B**.

D. Status of Underlying Land Use Approvals.

Sketch Plan approval was obtained from the EPC BOCC and recorded on September 23, 2020. The land use conforms to the Falcon/Peyton Small Area Master Plan for “Urban Density.” The County’s Master Plan categorizes the future land use placetype as “Suburban Residential.” This categorization provides a collection of land uses that include mainly single-family detached homes, but also includes single-family attached, multifamily, commercial retail, commercial service, parks and open space and institutional uses, all of which are anticipated within the Project.

V. INFRASTRUCTURE SUMMARY

Attached as **Exhibit C** is a summary of the estimated costs of Public Improvements which are anticipated to be required within these Districts. A general description of the categories of Public Improvements is included in Section III.D. of this Service Plan. The total costs of the Public Improvements is estimated to be approximately \$285,000,000 in year 2021 dollars. It should be noted, though, the foregoing costs estimates are preliminary in nature and the ultimate costs may increase or decrease depending on numerous factors, many of which are out of the Developer’s control. In particular, these initial cost estimates only include the public improvement portion of costs and the total project improvement costs (including items such as dry utilities, etc.) will be significantly higher and will materially increase the overall costs. The financial model attached to **Exhibit D** estimates that the Districts will finance up to approximately \$94,605,000 (approximately 36% of the total costs of the Public Improvements), but the amount ultimately financed by the Districts will be subject to the Maximum Authorized Debt limit.

All Public Improvements will be designed and constructed in accordance with the standards of the governmental entity to which such Public Improvements will be dedicated (including, with respect to storm sewer and drainage facilities, the applicable NPDES standards), and otherwise in accordance with applicable El Paso County standards. The composition of specific Public Improvements will be determined in connection with applicable future land use and development approvals required by El Paso County rules and regulations.

VI. FINANCIAL PLAN SUMMARY.

A. Financial Plan Assumptions and Debt Capacity Model.

Attached at **Exhibit D** is a summary of development assumptions, projected assessed valuation, description of revenue sources (including applicable mill levies and fees) and expenses for both operations and debt service, and an overall debt capacity model associated with projected future development of the Project. The model demonstrates that the Districts are capable of providing sufficient and economic service within the Project and that the Districts have or will have the financial ability to discharge the Districts’ Debt on a reasonable basis. The financial model attached as **Exhibit D** is an example of the manner in which the Districts may finance the Public Improvements. The specific structure for financing the Public Improvements shall be determined in the discretion of the

Boards of Directors of the Districts, subject to the limitations set forth in this Service Plan.

B. Maximum Authorized Debt.

The Districts are authorized to issue Debt up to \$295,000,000 in principal amount (total combined for all Districts). The debt issuance authorization is based upon the proposed completion of an estimated \$285,000,000 of on and off-site public improvements including, but not limited to, on and off-site streets, roadway, water and sanitary sewer, stormwater and drainage, and park and recreation improvements. The cost estimates are preliminary in nature and the ultimate costs may increase or decrease depending on numerous factors, many of which are out of Developer's control. In particular, the initial cost estimates only include the public improvement portion of costs and the total project improvement costs (including items such as dry utilities, etc.) which may well be significantly higher and will likely materially increase the overall development costs.

C. Maximum Mill Levies.

1. Maximum Debt Service Mill Levy. The Maximum Debt Service Mill Levy shall be fifty (50) mills, subject to Legislative Adjustment, for each residential district and shall be thirty five (35) mills, subject to Legislative Adjustment, for each commercial district. All Debt issued by the Districts must be issued in compliance with the requirements of State law including, but not limited to, Section 32-1-1101, C.R.S., as it may be amended from time to time, which outlines the various financial powers of a special district.

2. Maximum Operational Mill Levy. The Maximum Operational Mill Levy Cap for each District shall be ten (10) mills, subject to Legislative Adjustment.

3. Maximum Special Purpose Mill Levy. The Maximum Special Purpose Mill Levy for each residential district is five (5) mills, subject to Legislative Adjustment. It is anticipated that the entire revenues from the Operational Mill Levy will be needed to support District No. 1 operating and maintaining certain Public Improvements, including parks, open space, storm drainage, and water and sewer facilities. Covenant enforcement is a significant administrative and oversight function that requires substantial funding, which may require the use of an additional special purpose mill levy. An alternative is to utilize fees for this purpose, however, that decision will be made by the Boards after organization.

4. Maximum Combined Mill Levy. The Maximum Combined Mill Levy shall be sixty five (65) mills, subject to Legislative Adjustment, for each residential district and shall be forty-five (45) mills, subject to Legislative Adjustment, for each commercial district.

Increases to or removal of any of the Maximum Mill Levies shall be subject to Board of County Commissioner approval without the need for a formal Service Plan Amendment (unless the Board otherwise requires).

D. Maximum Maturity Period For Debt.

The period of maturity for issuance of any Debt (but not including Developer Funding Agreements) shall be limited to no more than thirty (30) years without express, prior approval of the Board of County Commissioners. Such approval, although required, is not considered to be a Material Modification of the Service Plan which would trigger the need to amend said Service Plan. However, the Districts are specifically authorized to refund or restructure existing Debt so long as the period of maturity for the refunding or restructured Debt is no greater than 30 years from the date of the issuance thereof. The Districts must be authorized to refund or restructure existing Debt within these confines because if bonds are issued in the early part of a project as proposed, the interest rate is generally higher due to the reliance on future projected development. As that development is completed, there is less risk to the bond holders and the initial bonds are refunded and replaced with lower interest rate “permanent” bonds in order to lower the tax impact on residents. This is a common structure for new development bonds.

E. Developer Funding Agreements.

The Developer intends to enter into Developer Funding Agreements with the Districts in addition to recovery of the eligible costs associated with creation of the Districts. It is anticipated that in the formative years the Districts will have shortfalls in funding their capital costs and monthly operations and maintenance expenses. The Developer may fund these obligations for the Districts to promote the Project’s development subject to the Developer being repaid from future District revenues.

Developer Funding Agreements may allow for the earning of simple interest thereon, but under no circumstances shall any such agreement permit the compounding of interest. The Developer Funding Agreements may permit an interest rate that does not exceed the prime interest rate plus two points thereon.

The maximum term for repayment of a Developer Funding Agreement shall be twenty (20) years from the date the District entering into such agreement becomes obligated to repay the Developer Funding Agreement under the associated contractual obligation. For the purpose of this provision, Developer Funding Agreements are considered repaid once the obligations are fully paid in cash or when converted to bonded indebtedness of the applicable District (including privately placed bonds). Any extension of such term is considered a Material Modification and must be approved by the Board of County Commissioners.

Required disclosure notices shall clearly identify the potential for the Districts to enter into obligations associated with Developer Funding Agreements.

F. Privately Placed Debt Limitation.

Prior to the issuance of any privately placed Debt, the District proposing such issuance shall obtain the certification of an External Financial Advisor substantially as follows:

We are [I am] an External Financial Advisor within the meaning of this Service Plan.

We [I] certify that (1) the net effective interest rate (calculated as defined in Section 32-1-103(12), C.R.S., as it may be amended from time to time, which defines “net effective interest rate” for purposes of the Special District Act) to be borne by [insert the designation of the Debt] does not exceed a reasonable current [tax-exempt] [taxable] interest rate, using criteria deemed appropriate by us [me] and based upon our [my] analysis of comparable high yield securities; and (2) the structure of [insert designation of the Debt], including maturities and early redemption provisions, is reasonable considering the financial circumstances of the District.

G. Revenue Obligations. The Districts shall also be permitted to issue Revenue Obligations in such amount as the Districts may determine. Amounts issued as Revenue Obligations are not subject to the Maximum Debt Authorization.

VII. OVERLAPPING TAXING ENTITIES, NEIGHBORING JURISDICTIONS

A. Overlapping Taxing Entities.

The directly overlapping taxing entities and their respective year 2020 mill levies are as follows:

El Paso County	.007755
El Paso County Road and Bridge	.000330
Peyton School District No. 23	.030469
Pikes Peak Library District	.003855
Falcon Fire Protection District	.014886
Upper Black Squirrel Creek Ground Water	.001056
El Paso County Conservation	.000000
Total Existing Mill Levy:	<u>.058351</u>

The total mill levy including the initially proposed District’s mill levy is 0.123351 mills.

It is not anticipated that there will be any significant financial impacts to these entities.

B. Neighboring Jurisdictions.

The following additional taxing and/or service providing entities include territory within three (3) miles of the Initial District Boundaries (based upon information provided by the County Assessor’s Office):

4-WAY RANCH METROPOLITAN DISTRICT NOS. 1 & 2
BENT GRASS METROPOLITAN DISTRICT
CENTRAL COLORADO CONSERVATION DISTRICT

EL PASO COUNTY
EL PASO COUNTY CONSERVATION DISTRICT
EL PASO COUNTY PUBLIC IMPROVEMENT DISTRICT NO. 2
EL PASO COUNTY SCHOOL DISTRICT NO. 49
FALCON FIRE PROTECTION DISTRICT
FALCON REGIONAL TRANSPORTATION METROPOLITAN DISTRICT
LATIGO CREEK METROPOLITAN DISTRICT
MERIDIAN RANCH METROPOLITAN DISTRICT
MERIDIAN RANCH METROPOLITAN DISTRICT 2018 SUBDISTRICT
MERIDIAN SERVICE METROPOLITAN DISTRICT
PAINT BRUSH HILLS METROPOLITAN DISTRICT
PAINT BRUSH HILLS METROPOLITAN DISTRICT SUBDISTRICT A
PEYTON FIRE PROTECTION DISTRICT
PEYTON SCHOOL DISTRICT NO. 23
PIKES PEAK LIBRARY DISTRICT
UPPER BLACK SQUIRREL CREEK GROUNDWATER MANAGEMENT DISTRICT
WOODMEN HILLS METROPOLITAN DISTRICT
WOODMEN ROAD METROPOLITAN DISTRICT

Anticipated relationships and impacts to these entities: As noted previously, the Developer and the Districts intend to work with any overlapping service providers to obtain the necessary consents and/or approvals for the provision of necessary services to the Districts including, but not limited to, wastewater and fire protection services.

VIII. DISSOLUTION

A. Consolidation. It is the intent of the Districts to consolidate or dissolve upon payment or defeasance of all Debt incurred, as well as when the Districts have been fully developed, all public improvements provided for in the Service Plan have been completed, or upon a court determination that adequate provision has been made for the payment of all Debt, and adequate provision for continuation or assignment and assumption of all operations and maintenance responsibilities for the District improvements and at such time as the District(s) do not need to remain in existence to discharge their financial obligations or perform their services.

B. Dissolution. Upon an independent determination of the Board of County Commissioners that the purposes for which a particular District was created have been accomplished, such District agrees to file a petition in the appropriate District Court for dissolution, pursuant to the applicable State statutes. In no event shall dissolution occur until the District has provided for the payment or discharge of all of its outstanding indebtedness and other financial obligations as required pursuant to State statutes.

C. Administrative Dissolution. The Districts shall be subject to administrative dissolution by the Division of Local Government as set forth in Section 32-1-710, C.R.S., as it may be amended from time to time.

IX. COMPLIANCE

A. An Annual Report and Disclosure Form will be required and submitted as described in C.R.S. 32-1-207(3)(d), as it may be amended from time to time, and as further articulated by Board of County Commissioners Resolution No. 07-273, which Resolution adopted the County's model service plan.

B. Material Modifications of this Service Plan shall be subject to the provisions contained in Section 32-1-207, C.R.S., as it may be amended from time to time, and relates to approvals and notices thereof.

X. MISCELLANEOUS.

The following is additional information to further explain the functions of the Districts:

A. Special District Act.

The contemplated municipal services are under the jurisdiction of the Special District Act and not the Public Utilities Commission.

B. Disclosure to Prospective Purchasers.

After formation of the Districts, and in conjunction with final platting of any properties within a particular District, the applicable Board of Directors of the District shall prepare a notice acceptable to the Planning and Community Development Department Staff informing all purchasers of property within the District of the District's existence, purpose and debt, taxing, and other revenue-raising powers and limitations. Such notice obligation shall be deemed satisfied by recording the notice with this Service Plan and each final plat associated with the Project, or by such other means as the Planning and Community Development Department approves. Such notice shall be modified to address the potential for future Debt issuance which may be required to meet the obligations associated with loans incurred by the District. Additionally, the notice shall disclose the limited representation elements associated with the Control District/Financing District structure. In conjunction with subsequent plat recordings, Planning and Community Development Department Staff is authorized to administratively approve updates of the disclosure form to reflect current information.

C. Local Improvements.

Prior to the financing of Local Public Improvements, and if required by County policy uniformly applied, agreements shall be in place to prevent a loss of sales tax revenue from sales of construction materials that would otherwise accrue to the County.

D. Service Plan not a Contract.

The grant of authority contained in this Service Plan does not constitute the agreement or binding commitment of the Districts enforceable by third parties to undertake the activities described, or to undertake such activities exactly as described.

E. Land Use and Development Approvals.

Approval of this Service Plan does not imply approval of the development of a specific area within the Project, nor does it imply approval of the number of residential units or the total site/floor area of commercial or industrial buildings identified in this Service Plan or any of the exhibits attached thereto. All such land use and development approvals shall be processed and obtained in accordance with applicable El Paso County rules, regulations and policies.

F. Citizens Advisory Council.

The Districts shall cooperate with the County in the formation of a Citizens' Advisory Council appointed by the Board of County Commissioners consisting of five (5) property owners within the legal boundaries of the Financing Districts. Council membership shall be open to otherwise eligible electors of any of the Financing Districts. Meetings will be held at times and in locations convenient to the Council members, and such meetings and the Council's functions shall be supported by the Service Districts, subject to applicable law. If required by the Board of County Commissioners, the Chair of the Council will be appointed as a voting member of the Board of District No. 1. Formation of a Council shall not be authorized until there are at least one hundred (100) dwelling units constructed within the Financing Districts. Continuance of the Council shall be at the sole discretion of the Board of County Commissioners, and in the event of insufficient interest in CAC membership, appropriate justification presented by the Controlling District Board of Directors, or for any other reason, the Board of County Commissioners, at its sole discretion, shall have the right to eliminate a prior requirement for a CAC.

XI. CONCLUSION

It is submitted that this Service Plan for the Districts establishes that:

A. There is sufficient existing and projected need for organized service in the area to be serviced by the proposed Districts;

B. The existing service in the area to be served by the proposed Districts is inadequate for present and projected needs;

C. The proposed Districts are capable of providing economical and sufficient service to the Project;

D. The area to be included in the proposed Districts does have, and will have, the financial ability to discharge the proposed indebtedness on a reasonable basis;

E. Adequate service is not, and will not be, available to the area through the County or other existing municipal or quasi-municipal corporations, including existing special districts, within a reasonable time and on a comparable basis;

F. The facility and service standards of the proposed Districts are compatible with the

facility and service standards of the County;

G. The proposal is in substantial compliance with the County master plan.

H. The creation of the proposed Districts is in the best interests of the area proposed to be served.

FOR AND ON BEHALF OF EDWARD-JAMES SURVEYING, INC.

EXHIBIT A. 4

EXHIBIT B

DEVELOPMENT SUMMARY

Approximately 555 single family homes with an average value of \$385,000, approximately 749 single family homes with an average value of \$375,000, approximately 846 single family homes with an average value of \$340,000, and approximately 1,110 single family attached homes with an average value of \$295,000 in year 2021 dollars; and approximately 20,000 square feet of commercial property is anticipated to be developed. It is anticipated that construction will begin in 2022 and the project will be completely developed at the end of 2036. The number of anticipated homes and the amount of commercial square footage remain estimates and may be altered depending on the final outcome of the development approval process. Further, the rate of absorption is a projected based on information from the developer and is used for estimating the Financial Plan. There is no way to accurately predict absorption due to variables such as the economic factors, housing demand, land-use approval timing, building supply chains, and labor availability. In view of these factors, the bond underwriter projects the potential ability of the Districts to discharge the proposed debt per the statutory requirement. If absorption is delayed or accelerated, the bond issuance parameters will reflect those changes at the time of issuance. As noted in the Financial Plan contained in **Exhibit D**, it is currently estimated that 244 total residential units will be added each year beginning in 2022 through 2032, 223 total residential units will be added in 2033, 184 residential units will be added in 2034, 109 residential units will be added in 2035, and 50 residential units will be added in 2036; and 20,000 square feet of commercial property will be added each year in 2025 and 2026.

Regarding public improvements, overall costs of approximately \$285,000,000 are currently anticipated, as outlined in **Exhibit C**. The current cost estimates include, but are not limited to, planning, permitting, and professional consulting costs in excess of \$38,000,000; water, sanitary sewer, and related drainage costs in excess of \$112,000,000; road, street and related improvements costs in excess of \$81,000,000; and landscaping costs in excess of \$24,300,000. The contemplated on and off-site public improvements include, but are not limited to, on and off-site streets, roadway, water and sanitary sewer, stormwater and drainage, landscaping, and park and recreation improvements. As noted in the Service Plan, the cost estimates remain preliminary in nature and the ultimate costs may be altered depending on numerous factors, many of which are out of Developer's control. In particular, the initial cost estimates only include the public improvement portion of costs and the total project improvement costs (including items such as dry utilities, etc.) could be significantly higher which would result in a material increase in the overall development costs. Given current demand and shortfall within the County and Colorado Springs area, the absorption rate was deemed reasonable. The infrastructure and financing plans will be adjusted accordingly if there are delays in the build-out.

URBAN MINOR ARTERIAL	
URBAN RESIDENTIAL ROADWAY	
URBAN LOCAL ROADWAY	
URBAN LOCAL (LOW VOLUME)	

STREET/ROADWAY IMPROVEMENTS DESCRIPTION:

URBAN MINOR ARTERIAL

THESE INTERNAL ROADWAYS WILL BE DEDICATED WITH A 100-FOOT RIGHT-OF-WAY AND INCLUDE A 62 FOOT WIDE PAVED SURFACE WITH A 14 FOOT STRIPED MEDIAN. 6 FOOT DETACHED SIDEWALKS WILL BE CONSTRUCTED WITH A 7 FOOT BUFFER. DESIGN SPEED = 40 MPH. POSTED SPEED = 35 MPH. MAX ADT = 20,000. DESIGN VEHICLE = WB-67.

URBAN RESIDENTIAL COLLECTOR ROADWAYS

THESE INTERNAL RESIDENTIAL ROADWAYS WILL BE DEDICATED WITH A 60-FOOT RIGHT-OF-WAY AND INCLUDE A 36 FOOT WIDE PAVED ROADWAY. 5 FOOT WIDE DETACHED SIDEWALKS WILL BE CONSTRUCTED WITH A 4 FOOT BUFFER.

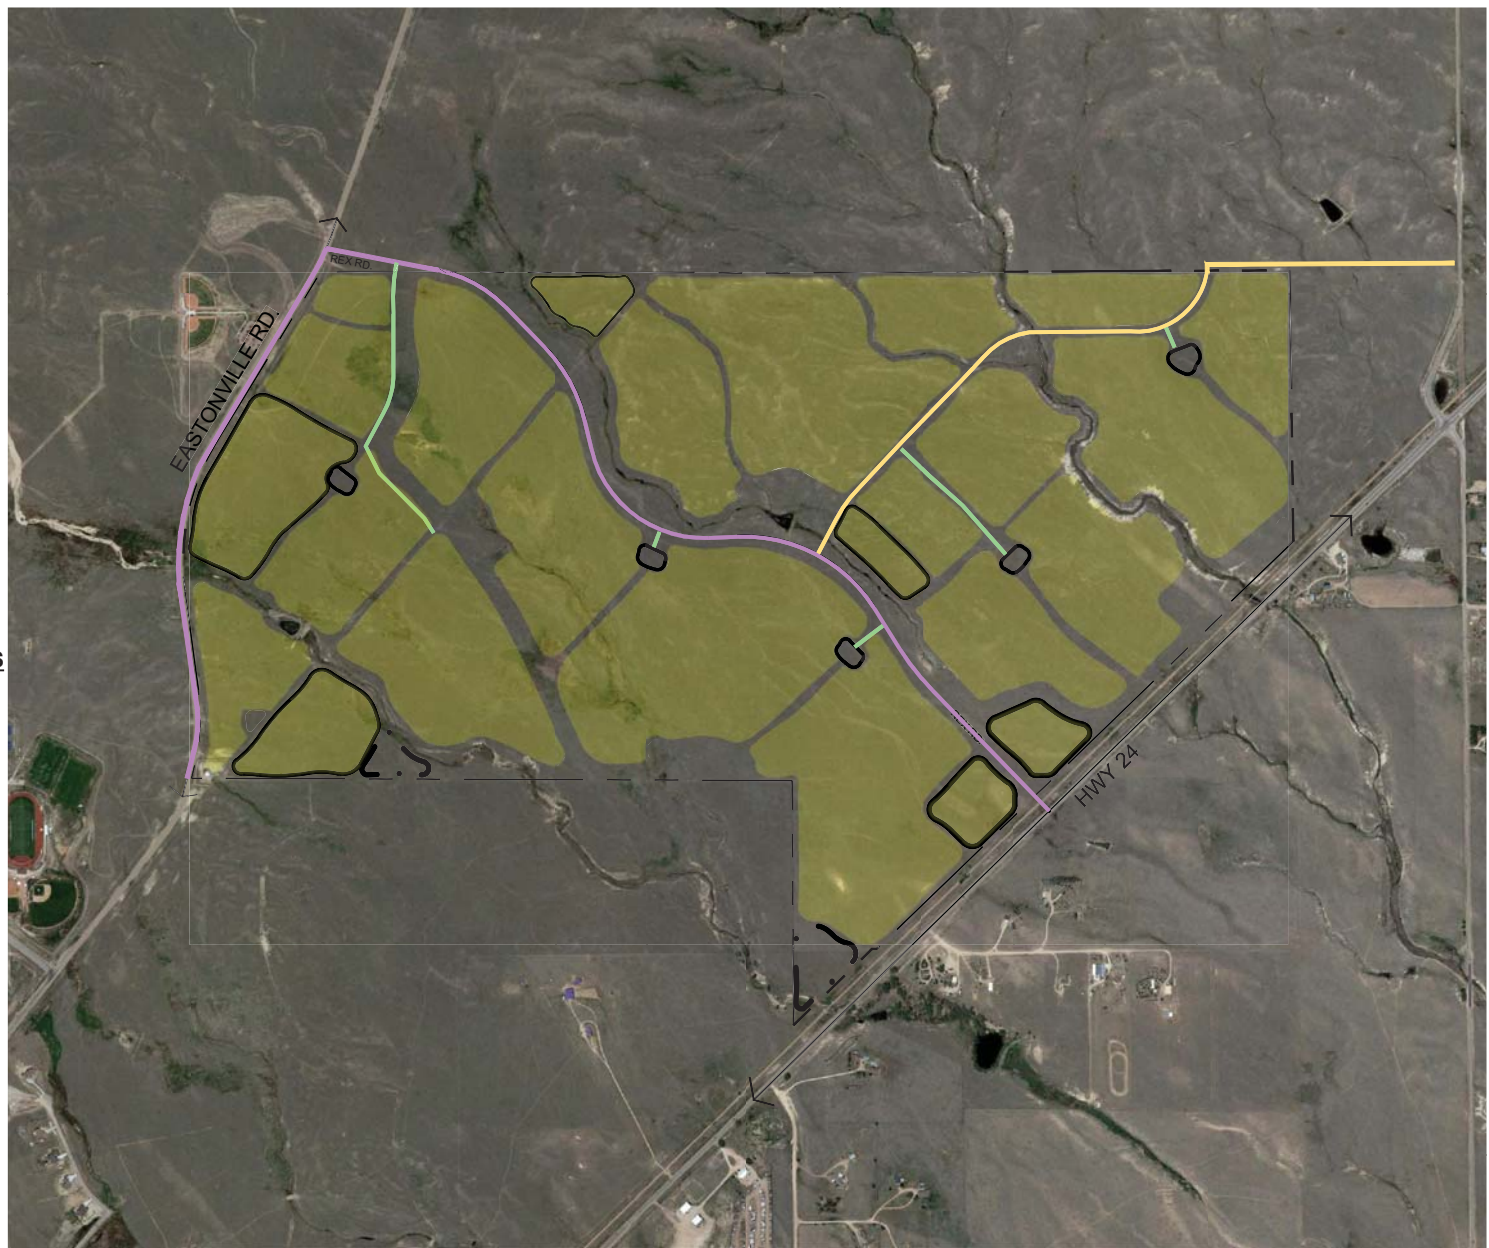

DESIGN SPEED = 40 MPH. POSTED SPEED = 35 MPH. MAX ADT = 10,000. DESIGN VEHICLE = WB-50.

URBAN LOCAL ROADWAYS

THESE INTERNAL RESIDENTIAL ROADWAYS WILL BE DEDICATED AS 50 FOOT RIGHTS-OF-WAY AND WILL INCLUDE A 30 FOOT WIDE PAVED STREET SECTION AND 5 FOOT WIDE ATTACHED SIDEWALK. DESIGN SPEED = 25 MPH. POSTED SPEED = 25 MPH. MAX ADT = 3,000. DESIGN VEHICLE = WB-50.

URBAN LOCAL (LOW VOLUME) ROADWAYS

THESE INTERNAL RESIDENTIAL ROADWAYS WILL BE DEDICATED AS 50 FOOT RIGHTS-OF-WAY AND WILL INCLUDE A 24 FOOT WIDE PAVED STREET SECTION AND 5 FOOT WIDE ATTACHED SIDEWALK. DESIGN SPEED = 25 MPH. POSTED SPEED = 20 MPH. MAX ADT = 300. DESIGN VEHICLE = SU-30.

STORM DRAINAGE IMPROVEMENTS

DESCRIPTION:

METRO DISTRICT BOUNDARY ———
EXISTING MAJOR CONTOUR — 6890 —
EXISTING MINOR CONTOUR — 6890 —
CHANNEL CENTERLINE ———
DETENTION POND

STORM DRAINAGE IMPROVEMENTS

DESCRIPTION:

PUBLIC STORM SEWER

THE STORM SEWER SYSTEM WILL BE DESIGNED IN CONFORMANCE WITH EL PASO COUNTY STANDARDS AND SPECIFICATIONS AND WILL INCLUDE VARYING SIZES OF CONCRETE STORM SEWER, CURB INLETS, MANHOLES AND FLARED END SECTIONS PLACED AT DAYLIGHT POINTS.

REGIONAL DRAINAGE SWALE

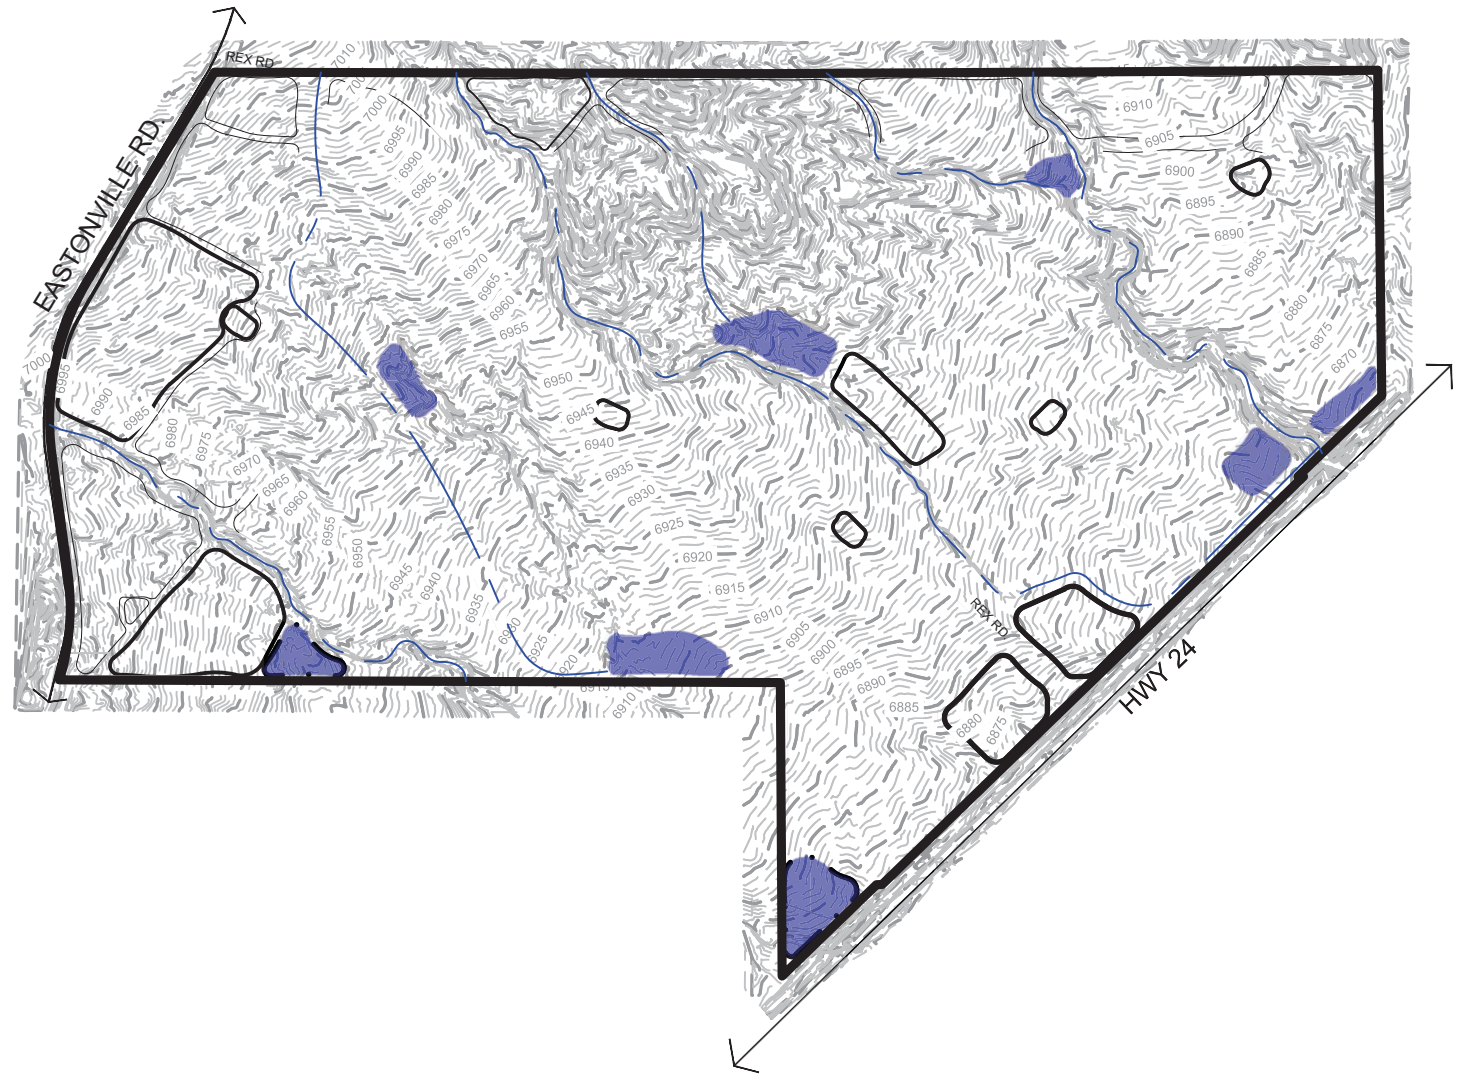

THIS REGIONAL SWALE IS INTENDED TO INTERCEPT OFFSITE- UPSTREAM DRAINAGE FLOWS AND ROUTE THESE FLOWS THROUGH THE SITE. CROSSING CULVERTS WILL BE REQUIRED AT PLANNED ROAD CROSSINGS. DOWNSSTREAM CHANNEL ARMORING SOUTHEAST OF HWY 24 MAY BE REQUIRED DUE TO FLOWS FROM THE DEVELOPED PROPERTY.

LOCAL DRAINAGE SWALES

LOCAL DRAINAGE SWALES ARE INTENDED TO INTERCEPT LOCAL ONSITE DRAINAGE AND CONVEY FLOWS TO SUB-REGIONAL DETENTION POND.

SUB-REGIONAL DETENTION POND

A SUB-REGIONAL DETENTION POND WILL BE CONSTRUCTION WITHIN THE DISTRICT BOUNDARIES TO ATTENUATE PEAK STORM DISCHARGE FLOWS DOWNSTREAM. DETENTION AND WATER QUALITY WILL BE PROVIDED IN CONFORMANCE TO EL PASO COUNTY AND MILE HIGH FLOOD CONTROL DISTRICT DESIGN STANDARDS.

LANDSCAPE IMPROVEMENTS

DESCRIPTIONS:

STREET BUFFER

STREET BUFFER AREAS WILL BE LANDSCAPED WITH TREES, ORNAMENTAL GRASSES AND SHRUBS. STREET BUFFER AREA IRRIGATION WILL BE LIMITED TO SPRAY HEADS, DRIP IRRIGATION AND BUBBLER SYSTEMS.

ENHANCED LANDSCAPE

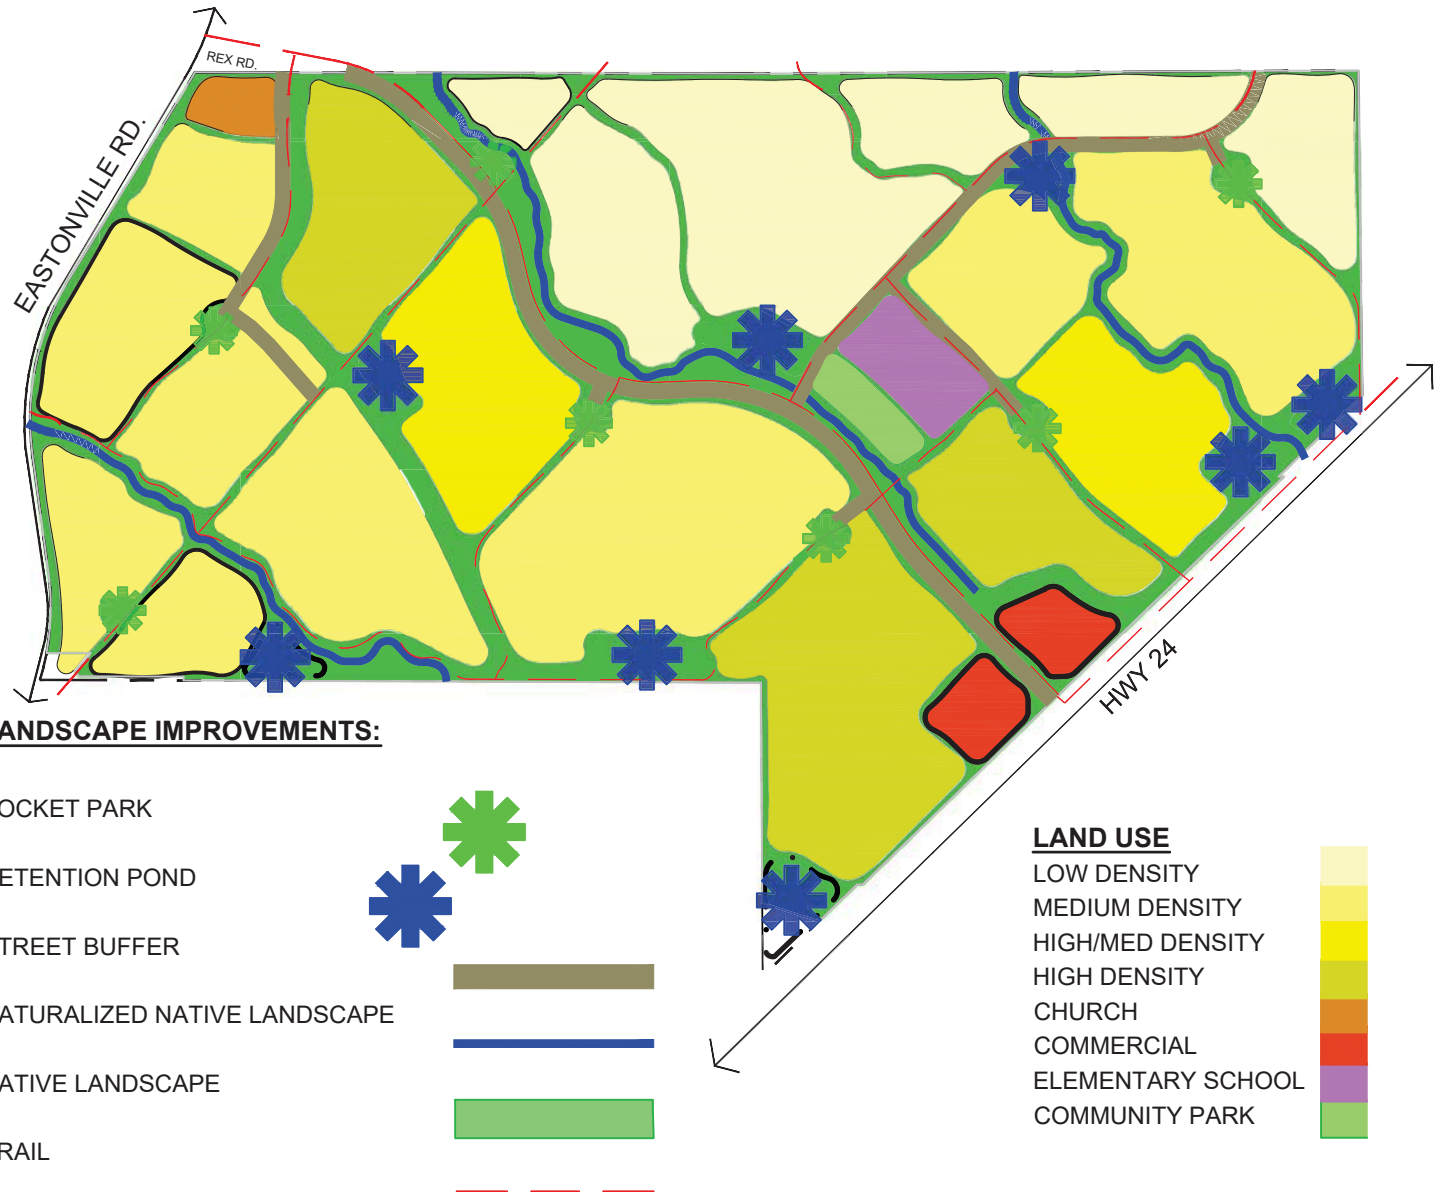

ENHANCED LANDSCAPE AREAS WILL BE PROVIDED IN KEY VISUAL AREAS AND WILL CONTAIN TREE AND SHRUB BEDS INCLUDING LANDSCAPE BERMS. ENHANCED LANDSCAPE AREAS IRRIGATION WILL BE LIMITED TO SPRAY AND DRIP IRRIGATION AND BUBBLER SYSTEMS. ENHANCED LANDSCAPE AREAS ARE TO INCLUDE COMMUNITY PARKS, POCKET PARKS AND ENTRANCE WAYS.

NATURALIZED NATIVE LANDSCAPE

THESE AREAS WILL BE LIMITED TO ONSITE NATIVE AREAS THAT WILL NOT BE DISTURBED AND REMAIN IN IT'S NATURAL STATE. NO IRRIGATION WILL BE PROVIDED.

NATIVE LANDSCAPE

THESE AREAS WILL BE PLANTED WITH NATIVE PLANTINGS AND WILL BE TEMPORARILY IRRIGATED TO ESTABLISH VEGETATIVE GROWTH. NATIVE LANDSCAPE WILL ALSO BE LOCATED IN ALL DETENTION PONDS.

EXHIBIT D

FINANCIAL PLAN SUMMARY

July 9, 2021

Proposed Grandview Reserve Metropolitan District
Attention: Russ Dykstra
1700 Lincoln Street, Suite 2000
Denver, CO 80203

RE: Proposed Grandview Reserve Metropolitan District

We have analyzed the bonding capacity for the proposed Grandview Reserve Metropolitan District (“the District”). The analysis presented summarizes and presents information provided on behalf of 4 Site Investments, LLC (“the Developer”) and does not include independently verifying the accuracy of the information or assumptions.

Plan Assumptions

The following assumptions have been provided by the Developer and form the basis of the analysis. All prices below reflect 2022 market values.

1. The residential development is comprised of 3,250 single-family homes projected to be completed at an average pace of 244 per year from 2022 through 2032 before tapering down from 2033 through 2036 to 223, 184, 109, and 50 units, respectively. The average price is modeled at \$340,520 with a 1% annual inflation rate.
2. The commercial development is comprised of 20,000 square feet of retail, half being completed in 2025 and the balance completed in 2026. The average value modeled is \$250 per square foot (\$5,000,000), with a 1% annual inflation rate.
3. The retail operations are estimated to generate sales revenue of \$300 per leased square foot assumes a three-year lease-up period upon completion (50% leased, 75% leased, 100% leased, respectively), with a 1% annual inflation rate.

Bond Assumptions

1. The residential debt service mill levy target is 50 mills beginning in tax collection year 2023. The commercial debt service mill levy target is 35 mills beginning in tax year 2026. The operations levy is shown as 10 mills starting in tax collection year 2023.
2. The District is modeled to issue senior bonds in December 2022; senior bonds with a par of \$65,025,000 and an interest rate of 5.0%. At issuance, it is projected that the District will fund \$300,000 in costs of issuance, \$9,753,750 in capitalized interest, and \$5,817,000 in a Surplus Fund from bond proceeds which constitutes 8.9% of the total 2022 senior bond amount. The Underwriter’s discount is modeled as 2% of par for senior bonds. The remaining \$47,853,750 is projected to be deposited to the District’s project fund to reimburse the Developer for eligible expenses.
 - a. Specific Ownership Tax revenues have been calculated based on applying a factor of 6% to annual property tax revenues.

- b. It is projected that 98.5% of property taxes levied will be collected and available to the District.
- c. It is projected that there will be a 2% biennial inflation rate on assessments. The bonding capacity could be higher if the rate of assessment inflation is greater, or conversely lower if the inflation rate is below 6%.
- d. Total senior bond par amount is sized to 100x coverage

Refinance Assumptions

1. The District is modeled to issue refunding bonds in December 2032; senior bonds with a par of \$94,375,000 funds on hand of \$455,000 and an interest rate of 4.0% for the senior bonds. At issuance, it is projected that the District will fund \$64,795,000 to refund the Series 2022 bonds and \$200,000 in costs of issuance. The Underwriter's discount is modeled as 0.50% of par for investment grade rated senior bonds. The remaining \$29,363,125 is projected to be deposited to the District's project fund to reimburse the Developer for additional eligible expenses.
 - a. Specific Ownership Tax revenues have been calculated based on applying a factor of 6% to annual property tax revenues.
 - b. It is projected that 98.5% of property taxes levied will be collected and available to the District.
 - c. It is projected that there will be a 2% biennial inflation rate on assessments. The bonding capacity could be higher if the rate of assessment inflation is greater, or conversely lower if the inflation rate is below 2%.
 - d. It is projected that the senior bonds will include an investment grade rating
 - e. Total senior bond par amount is sized to 100x coverage

Estimate of Revenue Projections for first 10 years

The debt service mill levy collection revenues over the first 10 years total \$15,783,601 plus an additional \$947,016 in specific ownership taxes associated with the debt levy, plus for a total of \$17,631,079.

The operations mill levy collection revenues total \$3,182,852 plus an additional \$3,119,194 in specific ownership taxes associated with the Operations levy for a total of \$6,302,046.

Based upon the development assumptions provided and the financial assumptions contained in the attached projected Financing Plan for the proposed Grandview Reserve Metropolitan District, the projected revenue is sufficient to retire all Debt referenced in the Financing Plan within the restrictions set forth in the District's Service Plan, including but not limited to the maximum debt mill levies and maximum maturity period.

Risks Associated with the Bond Financing

Risks to Tax Payers:

- Development is slower than anticipated
- Biennial inflation on assessed values is less than 2%
- District imposes Maximum Debt Mill Levy as described in the Service Plan

The primary risk to tax payers is that the Districts issue bonds to finance infrastructure and then the absorption of additional property, or its valuation by the Assessor, lags modeled expectations. If that occurs, then the Districts may need to levy the Maximum Debt Mill Levy as described in the Service Plan and would not be able to reduce the levy for a longer period of time.

Risks to Bondholders:

- Development is slower than anticipated
- Biennial inflation on assessed values is less than 2%
- Assurance of the continuation of development is not assured
- Reliance on Federal Tax Code and State laws governing municipal finance and special districts

The primary risk to bondholders is the development does not occur as fast as originally projected and that the revenues generated from the Maximum Debt Mill Levy as described in the Service Plan are not sufficient to meet the Districts' financial obligations. These risks are mitigated by funding a capitalized interest and surplus fund at closing. In addition, these bonds are anticipated to be marketed only to sophisticated investors who understand the risks involved in the transaction.

The assumptions disclosed in the Financial Plan are those of the Developer and have not been independently reviewed by D.A. Davidson. Those assumptions identified are believed to be the significant factors in determining financial feasibility; however, they are likely not to be all-inclusive. There will usually be differences between forecasted and actual results, because events and circumstances frequently do not occur as projected, and those differences may be material. Key assumptions, including those relating to market values of real property improvements and the build out schedule of such property, are particularly sensitive in terms of the timing necessary to create the tax base for the District. A small variation in these variables, and to their timing, can have a large effect on the forecasted results. There is a high probability that the forecasted results will differ from realized future tax base factors and such variations can be material. Additionally, other key assumptions relating to inflation, assessment ratios, interest rates, and infrastructure, administrative, and operating costs may, and likely will, vary from those projected.

Because D.A. Davidson has not independently evaluated or reviewed the assumptions that the financial model is based upon, we do not vouch for the achievability (and disclaim any opinion) of the information provided. Furthermore, because of the inherent nature of future events, which are subject to change and variation as events and circumstances change, the actual results may vary materially from the results presented here. D.A. Davidson has no responsibility or obligation to update this information or this financial model for events occurring after the date of this report.

Respectfully submitted,

D.A. DAVIDSON & CO. FIXED INCOME CAPITAL MARKETS

Brooke Hutchens

Managing Director, Public Finance
