Within the Public Streets Rights of Ways of:

Hannah Ridge at Feathergrass Filing No. 4  
El Paso County, Colorado  
Job No. 180563

Dear Ms. Nijkamp:

Representatives of Entech Engineering, Inc. periodically visited the site and performed field density testing during the subject construction processes. Testing was performed in general compliance with the frequency indicated in the El Paso County Engineering Criteria Manual. Results of field density tests have previously been provided. Field density tests were taken by Entech Engineering, Inc. personnel with test results presented in a report dated October 1, 2018. Results generally indicate densities, which meet those specified in the El Paso County ECM.

If you have further questions regarding this letter, or the construction from a geotechnical point of view, please call.

Respectfully Submitted,

ENTECH ENGINEERING, INC.

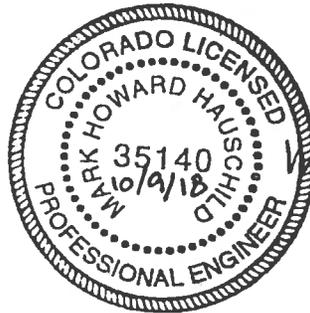

Daniel P. Stegman
