Gibson Administrative Relief, ADM-19-010

Please accept the following comments from El Paso County Public Health regarding the project referenced above:

- **No public health issues noted with this setback request; however, the type of wastewater service for this property was not identified in the submittal. If the property has an OWTS for wastewater service, then the soil treatment area (STA) must be located and protected. Advise contractors not to drive or park on the STA. Compaction of the soil treatment area often leads to premature system failure.**
