Re: Site plan with set backs, 1755 Rockbrook Road, MIBAR #20497

Dear Sir,

Per your request, we have reviewed the site plan along with the requirements from the plat. The house has been situated such that it meets the setback requirements. The Engineer stamped soils report gives the parameters to be met for the foundation design. With these two documents, the house can be constructed as designed for this lot.

Please do not hesitate to call us if you have any further questions.

Molly S. Tolle, P.E.
