Please be advised this document is to serve as the City Of Fountain Electric Review Comments for the WWSD Booster 2 Pump Station replacement NW of Metropolitan St and Kipling St. The project scope consists of replacement of a 50-year-old existing Booster 2 Pump Station and appurtenances due to age, resulting in prolonged issues

Upon reviewing the materials submitted for this project the City of Fountain Electric Department has determined that we have no objections to this request.

The Owner will be responsible for any costs associated with relocating any existing electric infrastructure should it interfere with your project. Any costs associated with electric service upgrades for this project will also be the responsibility of the Owner.

For any further questions or concerns please contact Tracy Tillman at 322-2061.
