Len,

Thanks for your call today. As you suggested I am writing you this email.

This is not the first time someone has wanted to put another house on their 5 acre property in this area and the concern is that if one person can do it then everyone can do it and the area will change in a negative way. My dad is in his 90s could I then build a small house for him on my property? We planned out house to provide space in case we needed to care for a parent and not a separate residence. It is a small house that is easy to knock down or to add on to. Obviously I do not know the whole situation but am not for this being allowed.

Thank you for your service

Chuck Moon
