Smith Farms Agritainment, PPR-18-018

Please accept the following comments from El Paso County Public Health for the request referenced above:

- **Drinking water for the request is not clearly specified in the Letter of Intent. If an individual well is proposed, then there is the potential for the water system to be classified as a Community Water System which is regulated by the Colorado Department of Public Health and Environment (CDPHE). If the drinking water use does not meet the definition, then use of a private well could be approved. Contact me for direction regarding drinking water options.**
- **Wastewater service for the project is proposed to be provided by the use of portable toilets and portable hand sinks. The project is described as being seasonal; therefore, the use of portables is acceptable. The portable toilets must be located so as to be easily accessed by the service company, and shall be serviced and cleaned on a routine basis. The hand sinks must be operated per the manufacturers requirements and shall have dispensed paper towels and soap.**
- **Animal waste must be removed daily to minimize odors, and insect/rodent attraction.**
- **Contact El Paso County Public Health regarding the rules and regulations related to Farmers Markets. 719-578-3135.**
