MEMORANDUM

DATE: January 30, 2023

TO: Zaker Alazzeah, P.E. | Traffic Engineering Manager/Deputy City Traffic Engineer

FROM: Jeffrey C. Hodsdon, P.E. - LSC Transportation Consultants, Inc.

SUBJECT: Colorado Concrete Crushing
RE: Transportation Memorandum
Response to City of Colorado Springs Comments Memorandum
LSC #S224330

Following are the LSC Transportation Consultants, Inc. responses to the August 2, 2022 Comment Letter prepared by the City of Colorado Springs Traffic Engineering regarding PPR2241.

Traffic comment:

a. *The developer will be responsible to improve Vollmer Road (adjacent to property line) to the ultimate minor arterial cross-section and include a northbound right turn lane at the site access. This turn lane will need to contain 155-foot turn lane and 160-foot long transition taper.*

LSC Response: The memo has been revised to include the right-turn deceleration lane as required by the City. The report also includes a recommendation for a paved shoulder in lieu of improving Vollmer to the full minor arterial cross section (not sufficient ROW at this time).
