Dear Commissioner Applegate:

I want you and other County Commissioners to stop the mosque planned for Woodmen and Maverick Roads.

There are several hundred mosques in New York City. Still, muslims take over streets and sidewalks, turning them into outdoor mosques, to face east and pray with their prayer rugs. Mass public prayers are a signal of dominance. We never see Seventh-Day Adventists, Buddhists, Hasidic Jews taking over public spaces for prayers. Christian churches, synagogues or their symbols are not permitted in muslim nations.

Muslims are intent on using the freedoms and openness of our society and way of life to infiltrate their Sharia Law and way of life into our communities through immigration, the breeding of large families, and taqiyya (deceit). It is a civilization jihad. "War is deceit," Muhammad supposedly claimed in one Hadith (Arabic for report or account).

I'm 84 yrs old and have done extensive reading and study on what mosques and Islam are about. They are antithetical to the foundation on which this country is founded and existentially hostile to Christianity. Yet, some sympathetic Americans are utterly oblivious to the underlying dynamics at play. There's an utter cultural blindness. All cultures are not equal, and we ought not infer the inner state of mind of the other.

The mosque will attract more muslims and one day it will reach a tipping point. We have seen in Europe that there's a wide failure of these people to integrate into their adoptive cultures.

This is by no means a small matter.
