Les,

We still have not received the court order. However, you can submit this email to PPRBD and EPCO Land Development as proof of inclusion during the interim period to get your project moving. Hopefully, that will suffice for now until orders are issued. The orders when issued are also recorded with the county for further proof.

Thanks!

Subject: White Cottage Farm

Hello Chief -

Checking in on how things are moving along on White Cottage Farm inclusion. The last time I spoke with Shawna I believe she indicated your board voted in favor of inclusion, but there were items that required recording that the District's attorney was taking care of.

We are trying to submit our application in the next week or so. Any resolution of our inclusion and a letter indicating we are in the Black Forest Fire and Rescue service area, how long it would take to serve the subject site and equipment available to provide service in the event of an emergency would be very helpful to our cause.

Thank you for your help, Chief.

Les
