Subject: Utility Trench Backfill – Storm Sewer  
Within the Public Streets Rights of Ways of:

Retreat at Timber Ridge Filing No. 2  
El Paso County, Colorado  
Job No. 221486

Testing should be in compliance with El Paso County standard specifications.

Dear Mr. LaForce:

Representatives of Entech Engineering, Inc. periodically visited the site and performed field density testing during the subject construction processes. Testing was performed in general compliance with the frequency indicated in the City of Colorado Springs Standard Specifications. Results of field density tests have previously been provided. Field density tests were taken by Entech Engineering, Inc. personnel with test results presented in reports dated August 24 through December 2, 2022. The results indicate densities which meet those specified in the City of Colorado Springs Standard Specifications.

If you have further questions regarding this letter, or the construction from a geotechnical point of view, please call.

Respectfully Submitted,

ENTECH ENGINEERING, INC.

Daniel P. Stegman

For all certification letters please include the following statement per ECM Chapter 5.10.6.B:

"The site and adjacent properties (as affected by work performed under the County permit) appear to be stable with respect to settlement and subsidence, sloughing of cut and fill slopes, revegetation or other ground cover, and the improvements (public improvements, common development improvements, site grading and paving) meet or exceed the minimum design requirements. "
