MAP AMENDMENT (REZONING) LETTER OF INTENT CHECKLIST

Revised: January 2022

Map Amendment		
<p>The purpose of zoning is to locate particular land uses where they are most appropriate, considering public utilities, road access, and the established development pattern. In addition to categorizing land by uses such as residential, commercial, and industrial, the LDC also specifies such details as building setback lines, the height and bulk of buildings, the size and location of open spaces, and the intensity to which the land may be developed. The zoning of parcels of land generally conforms to and promotes the County's Master Plan. Zoning protects the rights of property owners while promoting the general welfare of the community. By dividing land into categories according to use, and setting regulations for these categories, zoning governs private land use and segregates incompatible uses.</p>		
<p>The PCD Director may modify the applicable requirements, including requiring additional items or removing items, based upon the project and site-specific circumstances.</p>
